

# The Bow Valley Call

Devoted to the Up-Building of Gleichen and the Development of the District Generally

Year VI., No. 32.

GLEICHEN, ALBERTA, THURSDAY, OCTOBER 24, 1912.

\$1.50 Per Year

## TOWN AND DISTRICT

Ideal harvest weather.

For a musical treat be at the Opera House Saturday evening.

T. W. Bates is reported to have the best crop of oats so far heard of this season, running 111 bushels to the acre and has about 900 bushels. He also has 3,000 of wheat some of which grades No. 1 and the balance No. 2. This season he raised 1,600 bushels of potatoes and has some excellent timothy hay and alfalfa that is doing well.

The trustees of the Methodist church, Gleichen are making a strenuous effort this year to pay off the mortgage of \$650 against the church. In view of the fact that God has blessed this country with an abundant harvest the trustees are asking for thank-offerings from all who are interested in the work of the church in order that they may show their gratitude to God in this helpful way.

The Metropolitan Ladies' Orchestra of Chicago is to appear in the Gleichen Opera House on Saturday next, Oct. 26th. This promises to be one of the best musical entertainments yet presented here. The fact that John Cosgrove of Winnipeg has sent this company to Gleichen, is sufficient evidence that it will be high class, as so far he has never sent out any company that was not in the highest merit. The managers of the Opera House state that Mr. Cosgrove has also promised several other good companies for this season among them being the Swiss Beltingers. Many will remember their appearance in the Methodist church a couple of years ago.

A quiet wedding was solemnized on Wednesday, Oct. 16th, 1912 at the St. John's church by the Rev. Mr. Mitten, when Mr. George William Rawlings, rancher of Crowfoot Creek, was united in matrimony to Miss Elizabeth Hortense Snowden, also of Crowfoot Creek, only daughter of Mr. T. W. Snowden. The wedding party drove from the home of the bride parents to Cluny and thence to the St. John's church, where the bride was given away by her father, they then drove to Gleichen, and entrained for Banff and B. C. points with the good wishes of the select few who saw them depart.

P. J. Umbrite has shipped two earloads of Red Eye wheat to Randall, Lee & Mitchell at Winnipeg. He already has returns from one ear which that company graded No. 1, for which they forwarded payment. Mr. Umbrite states that one ear contained 1,114 bushels and the other 1,120 and he has still in the neighborhood of 800 bushels in his bins, which he will hold for seed. On summer fallow his wheat averaged 40 bushels to the acre and on last years breaking 38 to the acre. Some of the land he has cropped for five successive years with wheat yielded 22 bushels to the acre, but he intends to summer fallow this land.

M. A. Jarvis, of Bashau, returned to Cluny last week and purchased two more fine horses from A. G. Edwards, from whom it will be remembered he previously purchased eight. Mr. Jarvis' last purchase was "Buster" No. 2236, a beautiful black Percheron stallion and Lawrence No. 2259 a Belgian with an exceptional record. Both animals were bred by H. J. Wilson of Creston, Iowa, and raised by Mr. Edwards. Mr. Wilson in conversation with the Call admitted he was well satisfied with his former purchases and believed he had now some of the very best stock in the west. He said that in the Bashau district this year and everything pointed towards general prosperity.

## 106,600 BU. GRAIN SOLD SO FAR

When the Call reporter visited the elevators yesterday morning the managers were all busy taking in grain and it was quite impossible to get them to give further than general figures of the amount of grain they had taken in the past week. Their great trouble was the difficulty in obtaining cars to ship the grain they had received, and said they feared the difficulty in obtaining cars would increase rather than diminish, and they were finding trouble in explaining this to numerous farmers who were anxious to ship in earloads. Besides the grain taken in at the elevators three cars of wheat have been shipped from the track, amounting to about 3000 bushels, and one of oats was being loaded by M. Bollinger. Below will be found the shipments for the week as well as the total shipments to date.

	PAST WEEK	TOTAL TO DATE
Wheat	9,500	74,600
Oats	3,850	17,100
Barley	10,400	14,000
Flax	-	900
Total bushels for week	23,750	Total to date 106,600

It is estimated that a little over one-third of the crop has now been threshed and it may be remarked that the grain coming in so far is practically from those who are hauling direct from the separator and have not sufficient storage room for their grain.

## Gleichen Wins First Prize For Marquis Sheaf Wheat At Dry Farming Congress

W. H. Goodwin Brings Gleichen Honor.

W. H. Goodwin has brought honor to Gleichen by winning the first prize for the best sheaf of Marquis wheat exhibited at Lethbridge Dry Farming Congress which opened on Monday. Since the award has been made the Call has been unable to see Mr. Goodwin, who is busy farming about six miles straight north of town. From a neighbor it is learned by telephone that Mr. Goodwin had in about 43 acres of Marquis, which is described as being much finer wheat than the seed he planted. Further particulars are not obtainable at the present writing, but all will join the Call in extending to Mr. Goodwin sincere congratulations.

Metropolitan Ladies' Orchestra will be here Saturday.

The Hollows' social on next Thursday evening will start at 8 o'clock at the home of Mrs. J. McEwen.

J. Desjardine last week purchased from A. G. Edwards of Cluny a fine Shire stallion, which he intends to cross with his Percheron mares. Mr. Edwards states that this horse is one of the very best animals in this country.

A correspondent states there is a strange co-incidence in the north country. Every Sabbath when a young man visits his best girl a chicken flies out of the vehicle, and just about as regular a woman misses one from her coop. Other boys are wondering how Sherlock Holmes would account for these strange things.

N. W. McMillan states that on Wednesday of last week, McCarty & Evans threshed at his place 5,000 bushels of oats, which he describes as "heavy and tangled stuff," and under the conditions thought it was quite a record. At the time Mr. McMillan was in town he said he had already had in his out bins about 7,500 bushels. He had also a couple of days threshing yet of wheat, as well as some barley and flax. He said he hoped to be able to give the Call an exact account of his crops before our next issue.

A B. C. Investment is all right, see ad. of F. L. Harris in this issue.

Douglas Hardwick shipped 600 head of fine beef cattle east from Stobart yesterday, which are said to rank among the finest shipments of this year.

E. L. Birdson, who was injured six weeks ago, by a horse he was riding bucking and throwing him on to a barbed wire fence, while attempting at the same time to haul a vehicle with a rope attached to the saddle, is now able to be about on crutches.

A short meeting of the Gleichen and District Board of Trade was held in the Town Hall on Tuesday evening. Owing to the few in attendance little business was transacted. However, a determined effort was started to secure a much needed customs office and a court house, and every effort will be made to carry the business through.

The Blackfoot Indians were paid their annual treaty money Tuesday and Wednesday and as a result the town is full of the red brethren. The treaty amounted to between \$4,000 and \$5,000 this year and as usual the Indians are spending it freely. Horse racing and general sports are being indulged in at the North Camp and will continue for several days.

## School Taxes

Must be Paid

It appears that there has been much trouble in collecting school taxes in different districts and for the benefit of the taxpayers it may be well to state that the tax rolls are posted the first week in April and that we understand that in some instances it is being found necessary to issue distress warrants. The law on the subject reads as follows: "18. In case any person fails to pay the taxes assessed against him within thirty days after the posting of the tax roll the treasurer may by himself or his agent levy the same with costs by distress of the goods and chattels of the person against whom the same are assessed situated within the district or of any goods and chattels found upon the land in respect of which the taxes are due the property of or in the possession of any other occupant of the premises and the costs chargeable shall be the same as those allowed in the schedule to chapter 34 of The Consolidated Ordinances 1898."

Mrs. D. B. McNeil and her daughter Miss Irene arrived from Ontario Sunday where they have been visiting for three months, and spent until yesterday visiting Mrs. C. J. Bray and their numerous other Gleichen friends. They resided here for many years and were on their journey to their home in Vancouver.

A. G. Edwards, of Cluny, says he has a yearling percheron that stands 16 1/2 strong and that he is willing to buy a fur cap or hat for anyone who can beat this colt regardless of breed. The animal was foaled at Cluny. Mr. Edwards also states that he has farmed for many years, but that his crop this year beats all he had ever raised in any country. Asked for particulars he said: "Why I am no better off than my neighbors and many of them can discount me, yet I am very happy over my own crops."

## ...The Man Who Wins Out...

The man who gets the best value for his money, is the man who pays cash—spot cash—for all he buys. That's the man we want to deal with, because the argument works both ways, and after November 1 if you deal with us, you can be sure you are not paying a share of any other man's debts, because we shall treat every body alike—spot cash for everything—and lower our prices accordingly.

(Continued)

Her touch rested for a moment on his burning hands, and the very stillness of her cool fingers was comforting. Old memories flashed into his mind. Things which he had not thought of for years and years seemed to have happened only yesterday. He was a small boy again, back in the nursery of the country rectory, suffering from some childish illness, and his mother knelt beside him, her soft fingers stroking his hair, her soft voice telling a baby story to amuse him. Her rings had glinted in the sunlight, he remembered, how in his childish soul he had loved their glitter, and promised himself that when he was a man and very, very rich, he too would cover his fingers with stones that were all shiny and beautiful.

Sister Clare's hands were adorned with no rings, but their touch was wonderfully soothing, and her voice had in it just that same restful quality which, as he whimsically fancied, must belong to all mothers.

She has a mother's soul, the thought ran through his brain, and looking up into her smiling face, he smiled.

You must have second sight, he said in answer to her words. I have been thinking—all sorts of things, amongst others, that I'm a knave and a fool.

This is not the time for you to be thinking yourself either the one or the other, she said, a ring of firmness in her voice. You have to do nothing now but lie still, and get well. I am going to forbid your thinking at all.

I shall have to tell the police, or—somebody about last night, shan't I? he asked, the boyish way in which he appealed to her making Clare's heart yearn over him. To tend and watch over the in some loves is happiness to every man worthy of the name, and an most fierce joy had torn at and Clare hastened to set his head at rest.

Last night you were able to give no coherent account of what had happened, she asserted. The cabman who took you home drove away again immediately and of course your landlady never thought of taking his number. But when she saw you were really ill, and sent for Mr. Drummond, who brought you straight here.

Drummond? Why, I saw a case of Drummond's here, once—when was it?—and the sentence. Clare flinched, his eyes watched her, almost uneasily.

You saw Mr. Drummond's case yesterday morning? I thought it was weeks ago, or months. I—You know—I must see that man again. It is very important that I should see him again.

You shall see him, of course you shall see him. But just for today you must lie very quiet—make yourself into a vegetable, and think of nothing.

You make me feel rested, he said suddenly, after a pause, his eyes watching her tall, blue-robed figure.

Eczema 25 Years  
Cured by "Cuticura"

Leg Like Raw Flesh from Knees Down

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My own doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, 'try them if you like but I do not think they will do any good.' At this time my leg was like a piece of raw flesh and I had to walk on crutches.

"I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent. After the first two treatments she swelling went down and in two months' use of the Cuticura Remedies my leg was cured and the new skin grown on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use Cuticura for his own patients. But for the Cuticura Remedies I might have lost my life. I am truly grateful for the wonderful cure that Cuticura wrought and I always recommend it most highly as a sure and economical cure for skin troubles."

(Signed) Mrs. J. B. Renaud, 277 Madison St., Montreal.

For more than a generation Cuticura Soap and Ointment have afforded the speediest and most economical treatment for skin and scalp humors. Sold by druggists and dealers everywhere. For a liberal sample of each with 32-p. Book, send to: Potter & Co., Corp., 49 Columbus Ave., Boston, U.S.A.

## CASH FOR FARM LANDS

We have a number of clients who are open to purchase Choice farm lands and will pay spot cash for same. Send us all particulars of what you have to offer.

AUTOMOBILE—30 horse power Reo, almost new, with some cash to exchange on quarter section.

TO EXCHANGE—7 roomed house, modern, near centre of Winnipeg at \$4000 to exchange on a farm.

Bargains in Market Gardens and close in acreage, choice vacant lots. Well located houses. All of above will make splendid profits. Write for list.

We want agents to represent us at every point.

SCOTT, HILL & CO.,  
22 Canada Life Building, Winnipeg, Man.

what she moved to and fro about the room. You are so peaceful, and you have such mother eyes. He spoke dreamily, his glance fixed on her face, and the color mounted to her forehead.

You ought not to be wearing your life out here, he went on impetuously; you ought to be the mother of sons. It is women like you who bring good men into the world, and keep them good.

I think it is my vocation to take care of the sick folk, Clare answered, startled by his vehemence and trying to speak lightly, but he would not be thwarted.

I should like to see you happy, he said, you—and Dorothy—deserve all the happiness you can get. Dorothy won't be happy until Sir Miles is proved innocent, Clare was beginning, when Dyncourt interrupted her sharply, pulling himself higher on his pillow as he did so.

Is she happy with him. Does she love him? he exclaimed. Would it break her heart if he died?

If—Sir Miles died? Clare looked at him in grave astonishment. Why should he die? He seems such a strong man. It is terrible even to think of his dying.

But—does she love him? Dyncourt persisted. If he did die would it break her heart?

For a moment Clare wondered whether he had slipped back into the delirium of the night; it was so strange she thought that he who had been Dorothy's lover, should question Dorothy's friend in this searching fashion. But his eyes showed no trace of delirium; they gleamed with excitement, it was true, but they were the eyes of a man who knows what he is saying.

Dorothy has never spoken to me about it, she said gravely, but surely she is not the sort of woman to marry a man—unless—

Unless she loved him? Dyncourt moved restlessly. You and I know well that she is not a woman who would ever do anything that did not seem to her the truest and best thing to be done. And—Henceley, is worthy of any woman's love, he continued with an abrupt change of tone. I am glad I can prove his innocence.

You can prove it? Clare came close to the bedside. Oh! Mr. Dyncourt, if you can do that for Dorothy, how she will bless you.

I am going to do it, he said shortly. I am going to do it. He said shortly. I am going to do it. He said shortly. I am going to do it.

A great sigh escaped her. And it can't be any easier for you to want to do it, she whispered. It would be only human if you had not been sorry that Sir Miles was accused; but it is like you to want to do the most upright thing.

She was summoned into the ward at that instant, but the echo of her words stayed behind her and haunted Dyncourt.

It is like you to want to do the most upright thing. Was it like him. And why had this gold woman, with the mother eyes, so high an opinion of him? If she knew the truth, she would know that he had rejoiced over Henceley's trouble, that he had even hoped the time of anxiety might tell adversely upon Miles' health; that he had gone further still, and had almost decided to suppress the truth about Soames, letting Henceley continue to bear the blame unjustly. And yet this woman's eyes had looked at him with a certain proud confidence in his uprightness and honor. He felt ashamed. He, who had set forth with such high hopes, such great ideals, had sunk down to this—because of his own unbridled passion he had been ready to allow another man to suffer so terrible an accusation; he was ready still to hail that man's death with relief.

If Sister Clare could see into his heart, and know, as he knew then, all the ignoble longings that flourished there, would she still look at him with such gentleness in her eyes, such proud confidence in her smile?

It is like you to do the most upright thing!

Was it like him, when, twelve hours earlier, he had not only connived at, but actually carried out, the escape of a criminal, not out of pity for the criminal's fate, but merely because he feared a trial and all that might have been uttered to his own detriment. Lying there in the morning sunlight, he writhed at the image of himself he had conjured up, and at the thought of how his conduct would appear in the light of Dorothy's eyes.

(To be Continued)

## Laughed Once

A certain European regiment stationed in Northern India has a colonel who has only once been seen to laugh.

A private of this corps, while a prisoner in the guard-room for a military offence, bet the sergeant of the guard five rupees that he would make the commanding officer laugh when he was taken before him.

In due course, after reading the charge, the colonel asked the prisoner: Have you anything to say?

I won't say anything more about it, sir, if you won't was the unexpected reply.

The grim face relaxed, but the stern decision came all the same—Fourteen days confined to barracks.

## In Safe Keeping

Tommy—Can you eat nuts, grandma?

Grandma—Oh, dear, no. I haven't any teeth.

Tommy—Well look after these till I come back from school.

## To Lure the Cat

I was coming home rather late from the theatre the other night says Robin Goodfellow, and I was quiet as I walked down beneath the trees in our modest suburban road. Then, quite suddenly, I came upon a romantic little scene in the front garden of one of the most respectable of the villas.

Beneath two tall trees a fire of sticks had been lighted, and over it bent the shivering forms of two young ladies in evening dress. I noticed to my surprise, that one of the ladies had a frying pan in her hands, and an appetizing smell of bacon rose into the air. I wondered whether these two products of city civilization were playing at the simple life; but the next day I found the incident had a more prosaic explanation.

The favorite Persian cat had been missed during the evening, and at length had been located in the upper boughs of one of the trees. All bandishments failed to persuade her to come down, and yet her owners refused to look her out for the night. At last they remembered that she would always make her way into the kitchen in the morning and sit sniffing at the frying bacon, and they decided to fry some bacon at the bottom of the tree to attract her.

After half an hour over the fire the ruse succeeded at the cost of two bad colds.

## None of His Business

A surgeon describes a remarkable case of a patient's confidence in his medical adviser.

When I was a student in London I had an Irish patient with a broken leg. When the plaster bandage was removed and a lighter one put in its place, I noticed that one of the pins went in with great difficulty, and I could not understand it. A week afterwards, on removing the pin I found it had stuck hard and fast and I was forced to remove it with the forceps. What was my astonishment in making an examination, to find that the pin had been run through the skin twice, instead of through the cloth.

Why Pat, said I, didn't you know that pin was sticking in you?

To be sure I did, replied Pat. But I thought your honor knew your business, so I hit me tongue.

The Son—Mother, I'm going to have a sister, Mother, I'm going to have a sister, Mother, I'm going to have a sister, Mother, I'm going to have a sister.

The Son—Well, it gets like some always teasing the c.

Minard's Liniment Relieves Neuralgia

Labrador, the great peninsula on the east coast of British North America, has an area of 200,000 square miles, but the population is only 4,000.

## Very Considerate

Well, said the superior person, that seems to be the general impression that prevails among the masses.

I'll have you understand, sir, that I am not one of the masses.

I know that you are the self-satisfied one, getting up, I prefixed the 'm' merely out of consideration for your feelings.

## Ostend

Here Willie, cried the boy's father, everybody will be calling you a little gutton. Do you know what that is?

I suppose, replied Willie, it's a big gutton's little boy.

## A DOCTOR'S TRIALS

He Sometimes Gets Sick Like Other People.

Even doing good to people is hard work if you have too much of it to do. An overworked doctor tell his experience.

"About three years ago as the result of doing two men's work, attending a large practice and looking after the details of another business, my health broke down completely, and I was little better than a physical wreck.

"I suffered from indigestion and constipation, loss of weight and appetite, bloating and pain after meals, loss of memory and lack of nerve force for continued mental application.

"I became irritable, easily angered and despondent without cause. The heart's action became irregular and weak, with frequent attacks of palpitation during the first hour or two after retiring.

"Some Grape-Nuts and cut bananas came for my lunch one day and pleased me particularly with the result. I got more satisfaction from it than from anything I had eaten for months, and on further investigation and use, adopted Grape-Nuts for my morning and evening meals, served usually with cream and a sprinkle of salt or sugar.

"My improvement was rapid and permanent, in weight as well as in physical and mental endurance. In a word, I am filled with the joy of living again, and continue the daily use of Grape-Nuts for breakfast and often for the evening meal.

"The little pamphlet, 'The Road to Wellville,' found in pkgs., is invariably saved and handed to some needy patient along with the indicated remedy.

"There's a reason."

"Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## Considerate Judge

Judges were very considerate in the old days. Lord Brampton in his Reminiscences, relates a story illustrating this.

Baron Martin, a famous English jurist of the old school, whose native shrewdness and sense of fun often placed him at the mercy of the very men he was trying, was once about to sentence an old offender charged with a petty theft.

Look, said the Baron, with an assumption of severity; I hardly know what to do, but you can take six months.

I can't take that, my lord, it's too much, said the prisoner respectfully but firmly. I can't take it. Your lordship sees I didn't steal very much after all.

The Baron indulged in one of his low, chuckling laughs before replying. Well, that's verily true; ye didn't steal much, he said. Well then, ye can tak' four months. Will that do—four months?

Nay, my lord, but I can't take that either, was the reply.

Then tak' three.

That's nearer the mark my lord, the prisoner said, approvingly. But I'd rather you made it two, if you will be so kind.

Verra well, then, tak' two, said the judge with the air of one who is pleased to have done the right thing at last. And mind, don't come again. If ye do, I'll give ye—well, it all depends.

## BABY'S BEST FRIEND

Baby's Own Tablets are baby's best friend and the mother's greatest aid. They cure constipation, simple fevers, break up colds, expel worms and regulate the stomach and bowels. Concerning them Mrs. Napoleon Pelletier, St. Marcel, Que., writes: "I have used Baby's Own Tablets for constipation and simple fever for both my little girl of three years and my boy of four months and have found them entirely satisfactory and always keep them in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

My husband considered a very long time before he proposed to me; he was very careful.

Ah, it is always those careful people who get taken in.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

One Board of Trade electrical unit will keep a sixteen-candle carbon lamp alight for about sixteen hours.

## HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

They understand, have known F. J. CHENEY & CO. for the last 15 years, and believe it to be the best Catarrh Cure.

They are financially able to carry out any obligation made by their firm.

WALDING KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Scottish oil companies alone have contracted for 200,000 tons of oil fuel to be supplied to the Navy.

## Truly British

Perhaps few stories of battles so thoroughly illustrate the true British spirit and way of doing things as the little incident at a reconnaissance before the Battle of Ulundi, of which Lord William Beresford was the hero.

The British were almost led into a terrible trap, and discovered the danger only just in time. They turned to retreat, and the Zulus poured in a volley which brought down the grey horse of a mounted infantryman. His rider fell head foremost. The rest of the British man and horse were killed at first, but the former soon struggled to his feet, with his face covered with blood and dazed with his fall.

Lord William Beresford, seeing what had happened, pulled up, and in the face of advancing hosts of yelling savages, within easy range, quietly trotted back and told the man to mount behind him.

With a cool courage scarcely second to Lord William's the man refused, noble fellow that he was, preferring the certain sacrifice of his own life to the probability of destroying his preserver.

The reply was admirable, terse, and telling. The savages swarmed closer and closer, bullets rattled around them; the two who lingered were almost within reach of the assegais, and Lord William said:

Get up, or I'll punch your head!

The man obeyed and rescuer and rescued escaped.

That's arrant nonsense, said Mr. Henpeck, about there always being room at the top.

Oh, his wife sarcastically replied, when were you up there to see?

No More Asthma. Dr. J. D. Kellogg's Asthma Remedy sounds the death knell of this trying trouble. It stops the awful choking and painful breathing. It guards against night attacks and gives renewed ability to sleep and rest the whole night long. Much is claimed for this remedy, but nothing but what can be demonstrated by a trial. If you suffer from asthma try it and convince yourself of its great value.

It was simply a question of veracity between us, said the oldest inhabitant. He said I was a liar, and I said he was one.

Humph! rejoined the village postmaster. That's the first time I ever heard either of you telling the truth.

Do you think it is possible to make an airship absolutely safe?

Sure, replied the mechanician.

How?

Disable it before it gets a chance to leave the ground.

More About  
The Loading Platform

The present generation of Western farmers will never know the difficulties and vexations experienced by their predecessors in the earlier years when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oft times to submit to heavy dockage and other annoyances, causing continual dissatisfaction. Now, however, the distribution of cars as fixed by the Grain Act and the use of the loading platform, provide facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain, and the highest market prices at time of sale. Every farmer therefore, should more and more endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmers' freedom in disposing of his grain to the best advantage for himself. If farmers refrain from using the loading platform freely, it might result in its being done away with, because railway companies and elevator owners are strongly opposed to it. It is easy to understand why elevator people desire the loading platform abolished. The railway people on their part say it delays the loading of cars and helps to ensure car shortage. This we know to be nonsense, because frequently after cars are loaded, whether with grain, coal, lumber, or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination. It is engine shortage and shortage of competent train men that mostly causes grain blockades on railways and not lack of cars. Let every farmer therefore, do all he can to use the loading platform and become an independent shipper. In subsequent advertisements we will state in detail the advantages and other advantages of direct loading into cars compared with loading through elevators.

We handle the farmers grain strictly on commission, make liberal advances on car bills of lading, supervise the grading at time cars are inspected, secure the highest prices at time of sale and make prompt return when sold. Write us for shipping instructions and market information.

## Hockey Prospects For Season 1912-13

The first meeting of the Gleichen Hockey Club for this season was held in the Town Hall on the evening of Thursday, Oct. 17th, with a goodly number present. It was generally conceded that Hockey would be well patronized during the coming season. Mr. Black, of the staff of the Bank of Commerce, filled the chair and Mr. D. Bishop, the secretary of the club was in his regular position.

After reading and confirming the minutes of the last previous meeting, Mr. Bishop gave a brief statement of the financial standing of the club. After spending some \$900 on rink, team, etc., during the past season and paying all liabilities there remained as assets of the club

Cash .....	\$ 5.13
2 Rink Lamps .....	50.00
1 Heating Stove .....	10.00
2 Goal Nets .....	10.00

Total Assets of Club \$75.13  
On motion of F. Scott and W. H. McKie the report was adopted.

Last year but few of the business men were called on to contribute to the funds of the club, but this year owing to the heavy expenditure for new rink, etc., a general canvas for contributions will be made. Other methods of raising funds were also discussed and the club decided to hold a Masquerade ball somewhere about December 15th.

The following officers were then elected:—

Hon. President—Mayor C. J. Bray  
Hon. Vice-Presidents—Messrs. Leggatt and McCammon.  
President—W. H. McKie  
Vice-President—J. Black  
Secy-Treas.—D. Bishop  
Manager—J. Gibson  
Executive Committee—The officers and Dr. McIntyre, F. Johnston

### UNRESERVED

## Auction Sale!

Alberta Stock Yards  
Calgary

Thursday, October 31st  
at 1 o'clock sharp

Instructed by Messrs. Muckle, Hoople & Renton, who are disposing of their horses and going in for sheep, I will sell the undermentioned:—

112 Head of HORSES  
consisting of:—  
46 head of Mares from 3 to 6 years old, and weighing from 1250 to 1400 lbs each.  
35 head of geldings 4 to 5 years old, weighing from 1300 to 1450 lbs each  
30 head of Suckers.  
1 Registered Stallion "Copshaw Special" (imported).

The above horses are the best lot of Clyde breeding I have ever had the pleasure of exposing for sale in Alberta. The mares are mostly all young, and their sires and grand sires were imported horses.

Messrs. Muckle, Hoople & Renton are well known all over Alberta for their good Clyde horses and anyone in want of good stock will do well to attend this sale.

These gentlemen are to have their horses brought in to the Stock Yards for the convenience of intending purchasers.

Terms Cash. No Reserve.

Three of A Kind

Any kind of a horse will be well shod if we do the shoeing—trotting horse, dray horse or racer, and we doubt if we charge any more than some ask for careless, even injurious work.

J. H. RILEY

Gleichen. . . . . Alberta

F. Scott, C. Gaudaur, M. Redfern and J. Chayer.

The secretary then brought the matter of rink location and the offer of Mr. E. Griesbach to give the club the use of the land required free, on condition that the club pay the taxes amounting to \$75 per year. The council has been interviewed regarding the remitting of the taxes and have promised to consider the same and report to the club.

A committee of four was then appointed to interview Mr. Griesbach and have an agreement drawn up and signed.

Rink building was then discussed and Mr. Harlow of the Crown Lumber Co. submitted the following estimates:—

For a rink 91 x 148 with a 10 ft. fence all around, grand stand 108 x 25 ft., 4 ft. inside fence, and building at north east corner 25 x 25 ft. material would cost \$300.

Also, the same as above, with a roof and elevated grand stand, two dressing rooms 12 x 12, material to cost \$615.

Nothing definite was decided upon but, taking into consideration, the financial condition of the club, the first proposition would be the easier to carry out.

Ways and means of strengthening the team were then discussed, and from the results should come a team not only a credit to the club but to the town as well.

The report current in the town of hockey club money having been used for the purchase of signet rings for the team was then brought up. The secretary definitely stated that not one cent of the funds had been so used, the amount not raised by popular subscription, having in each case been paid by the individual receiving the ring. He further stated that his books were open for inspection at any time to verify this statement.

On motion the meeting then adjourned.

## CORRESPONDENCE

We are not responsible for the opinions of correspondents. All communications must be signed by the person responsible for the same.

To the editor:—

A special meeting of the Board of Directors of the Combined Irrigation committee of the United Farmers of Alberta was held in Strathmore on Thursday, Oct. 17th. Detailed plans for the further protection of the farmers in the Irrigation Block were discussed and action along these lines will be taken at once.

It was decided that the farmers should be advised generally of the action that the committee is taking for their protection and the hearty co-operation of all farmers in the Irrigation Block is requested by communicating with a member of their local irrigation committee.

It was brought to the attention of the committee that in several cases the C.P.R. had threatened the cancellation of contracts and it is requested that all letters and communications in such cases be forwarded under registered mail, to the secretary of the U.F.A. at Calgary.

The directors also wish to particularly call the attention of the farmers in the Irrigation Block to the fact that the order issued in Ottawa under date of September 18th, and published in the Bow Valley Call under date of October 3rd, applies to all receipts issued by the company in the past as well as those issued in the future, and they request that all farmers mail all their receipts for water rentals to the secretary of the United Farmers of Alberta, Calgary, by early mail, as arrangements have been made for having the proper guarantee stamped upon such receipts.

W. D. TREGO,  
Secretary.

By request of the Directors of the Combined Irrigation Committee.

## MANITOBA S.S. CONVENTION

The 1912 Convention the Biggest and Best Yet  
Brandon, November 20th to 22nd

Preparations are well under way for the Thirtieth Annual Convention of the Manitoba Sunday School Association. It is to be held in Brandon, November 20-22. The railways will carry delegates at single fare for round trip. It will be necessary to secure a certificate from each road travel ed over and when signed by the General Superintendent, will entitle the holder to a free return ticket to their respective homes.

The committee have been fortunate in securing the services of Rev. W. A. Brown of Chicago as the chief speaker. He is one of the strongest men on the Sunday School platform in America.

Prof. L. L. Henry of Chicago, will have full charge of the musical part of the program.

In addition to the outside talent, between forty and fifty of the best speakers and experts of the province both ministers and laymen, will take part.

Some of the leading features of this great gathering will be a number of luncheons—one a Business Men's luncheon at noon hour—a program of addresses, papers and music will follow each of these—street parade, a great choir of children's voices, rallies and an installation service.

This annual gathering has grown in numbers and influence to such proportions that it is one of the greatest religious bodies meeting in Western Canada. An inspiring and helpful time is assured all who attend. For full information address W. H. Irwin, 62 Scott Block, Winnipeg.

## FEARFUL HEADACHES

STOMACH BAD, NO APPETITE, WAS LOSING WEIGHT AND STRENGTH

Wonderful Change When Health Was Restored by

## DR. CHASE'S NERVE FOOD

Headache is a symptom and not a disease in itself. It acts as a danger signal to warn you of serious trouble.

By reading Mr. Donner's letter you will be satisfied that there is no treatment to be compared to Dr. Chase's Nerve Food as a means of building up the system and removing the cause of headaches, sleeplessness and indigestion.

Mr. Charles Donner, Kleinburg, Ont., writes: "I wish to communicate to you the great cure which I received from Dr. Chase's Nerve Food. For over two years I suffered from fearful headaches, my appetite was always poor, and the stomach bad. I took medicines from physicians, but the headaches persisted, and I was rarely free from them.

"Reading about Dr. Chase's Nerve Food, I began using it, with little idea that I would be benefited. I had become thin and weak, and the very first box helped me, and with continued treatment I have been cured and feel like a new man. The headaches have disappeared, my appetite is good and digestion excellent. I write this letter in hope that other sufferers from headache may use Dr. Chase's Nerve Food and be cured."

Dr. Chase's Nerve Food, 50c. a box, 6 for \$2.50, at all dealers or Edman, Bates & Co., Limited, Toronto.

**A More Serious Matter**  
Judge Giles Baker, of a Pennsylvania county, was likewise cashier of his home bank. A man presented a cheque one day for payment. He was a stranger. His evidence of identification was not satisfactory to the cashier.

Why, Judge, said the man, I've known you to sentence men to be hanged on no better evidence than this.

Very likely, replied the Judge, but when it comes to letting go of cold cash we have to be mighty careful.

Bear Island, Aug. 26, 1903.  
Minard's Liniment Co., Limited.

Dear Sirs,—Your traveller is here to-day and we are getting a large quantity of your MINARD'S LINIMENT. We find it the best Liniment on the market making no exception. We have been in business 13 years and have handled all kinds, but have dropped them all but yours; that sells itself; the others have to be pushed to get rid of.

W. A. HAGERMAN.

Night after night the famous footballer solemnly walked the bed-room floor, bearing in his arms the youngest of his family. Instead of improving, the affliction with which he was bothered became worse, the hours of his night-watch increasing rather than diminishing.

One night, in the middle of his perspiration, he calmly awakened the nurse.

My dear, he grumbled, if the captain of our team saw me now, I'll wager he'd give me a good sisting.

For what reason? asked the good lady sleepily.

Because I've lost all control of the bawl, came the reply.

A purchase of a riverside property asked the estate agent if the river didn't sometime overflow its banks. Well, replied he, it isn't one of those sickly streams that are always confined to their beds.

Warts are unsightly blemishes, and corns painful growths. Holloway's Corn Cure will remove them.

Living within a stone's throw of each other in Stomum Parva, a little village in Suffolk are twenty-eight persons whose aggregate ages total 2,121 years.

## HAD FAD SORES FOUR YEARS

Zam-Buk Has Healed It!

Mrs. Wilson, 110 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to discharge freely, and was most painful. I had it cauterized, tried poultices, and all kinds of salves, but it was no good, and I continued to suffer from it for four years!

"I saw a bottle of Zam-Buk was one day given to me, and I used it. Although the quantity was so small, it seemed to do me some good, so I purchased a further supply.

"Each box did me more and more good, and, to my delight, before I had been using Zam-Buk three weeks, I saw that it was going to heal the sore. In less than a month it was healed!"

"I know a lady in the east of the city, whose husband suffered for years with an open sore on his leg. On my recommendation, Zam-Buk was tried in that case. The other day, when I saw her, she told me that it had healed the sore completely.

"My daughter, who lives in Lethbridge, Alta., has also used Zam-Buk with the same satisfactory result. I think it is, beyond all doubt, the finest healing balm known."

Such is the opinion of all persons who have really tried Zam-Buk. It is a sure cure for eczema, piles, abscesses, ulcers, burns, bruises, and all skin injuries and diseases. 50c. box, all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. In case of skin disease use also Zam-Buk Soap, 25c. tablet.

The Boy—What is a den?

Father—A den, my son, is a place where wild beasts make their homes.

The Boy—No; I mean a den in a man's house.

Eddie, interrupted the mother, your father's definition applies to that also.

**The Oil for the Athlete.**—In rubbing down the athlete can find nothing finer than Dr. Thomas' Electric Oil. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Mr. Justyn, said the editor, looking over a new reporter's story of a political meeting, in this writup of yours you say restless waves of applause from the audience fairly overwhelmed the speaker. Look at the absurdity of that figure of speech. How could a restless wave of applause or anything else come from an audience? It could come from a sea of upturned faces, couldn't it? Insisted the new reporter.

**Minard's Liniment Cures Burns, Etc.**

A prisoner on his trial, in answer to the charge pleaded "Not guilty." The jury found the charge proved and in passing sentence the Judge said: "You're not only guilty, but you come here and tell lies, saying you're not."

The prisoner who followed next for trial was doubtless influenced by this and supposed it would be well for him to take another course, so he pleaded Guilty, in an almost self-satisfied voice.

Oh, you're guilty, are ye, said the judge, and come here to brag about it, do ye?

**Gratitude**

A little girl was weeping bitterly in the street, greatly to the concern of sympathetic passers-by. At last a benevolent old gentleman approached the little maid, and patting her on the shoulder inquired what was the matter.

I've lost a penny, sir, was the reply given between sobs. The old gentleman promptly thrust a hand into his pocket and brought out a penny, which he handed to the little girl.

She looked at him askance for a few minutes, and then remarked in a tone more of sorrow than anger, Oh, you wicked old man, so 'oo had it all the time!

## HISTORICAL PICTURE FILMS

Reproducing Stirring Scenes on Canada's Early History

The stirring times which occurred between the early French settlers on the island of Montreal and the warlike Iroquois who were settled on the island, were vividly rehearsed at Johnson's Point this week by the British American Film Company of Canada, who have taken up camping quarters on this ancient Indian Reserve, for the purpose of reproducing the historical scenes of two hundred years ago when Montreal was but a little village defended by a few Frenchmen against the constant onslaught of the bloodthirsty Indians of the Iroquois tribe who looked upon the French settlers as usurpers and were determined to wipe them out if it were at all possible.

It was the story of the gallant defence of Dollard des Armeaux and his sixteen heroes retold in realistic form at Johnson's Point only a short distance from the actual spot where this thrilling episode took place in 1690. The hundreds of real Indians, relics of the Iroquois tribe were present in full warpaint armed with ancient weapons of various kinds, particularly the arrows, some poisoned. The announcement of the approach of the Indians in the thousands was quickly taken up by Dollard who asked for volunteers to set forth on their death journey to intercede the attacking tribe, and repulsing them until each one of them was dead. Sixteen volunteers and the signing of the register was a pathetic scene before the little church at Montreal, demonstrating that they were ready to sacrifice their lives to save the village.

Thus they set out and twenty miles from Montreal erected a stockade, awaiting the coming of the Indians. They were joined by forty three Algonquins who were a friendly tribe to the Frenchmen and together they defended the stockade to the death. The approach of the Indians was realistic and made spectators feel creepy but were happy to know that the attackers sounded and resounded like a death knell on the little defending band. Once, nay, twice were the Indians gallantly repulsed with little loss to the defenders, but the friendly Indians lost courage and deserted their comrades and joined the attacking force. Flaming arrows were flying in many directions towards the stockade and it was a real wonder how everybody escaped injury in such a realistic performance. The last stand was great but disastrous to the heroes. The defenders prepared a gun for discharging on the attackers and it was rammed tight with powder. When hoisting it to the top of the stockade it fell back and exploded with terrific force killing most of the little band. In the meantime the stockade caught fire and it was a most thrilling sight. The burning of the stockade, the falling of the gate, and the great onrush of hundreds of Indians to finish these surviving was a repetition almost lifelike to what actually occurred, and the scalping was a completion of a scene which was heartrending, but fine from a stage point of view. The Indians danced round in great jubilation at the destruction of the French. But this is only one of the stirring incidents that will be depicted for the moving picture patrons by this company. The pictures will be unloaded very shortly and theatre goers will have an opportunity of realising to the full the defence of the early settlers of Canada and the stand they made against the bloodthirsty Indians.

**Driven by the Sun**

Sun heat has been successfully used to raise steam in an engine in Egypt. The sun-power plant and engine are the invention of Mr. Frank Shuman, of Philadelphia. The heating apparatus consists of 572 boxes of sheet-iron, each 3 feet square, framed in stout wood and covered with two sheets of glass, separated by an air space of one inch.

All these are mounted on trestles, facing due south, with a surface of 2,900 square feet exposed to the sun's rays. Further heat from the same source is concentrated on the boxes by 6 ft. mirrors, and a temperature of 450 deg. Fahrenheit, more than double boiling-point, can be obtained in this way.

The sun power engine is adapted for use in tropical climates, where the cost of fuel exceed 10s. a ton.

**Time-Saving Idea**

He was a cashier in a West end business house, and his fortnight's holiday had just ended. As he entered the office on the Monday morning, his fellow-clerks rose to greet him; but he held up his hand for silence, and before anybody could say a word he distributed among them a number of neatly-printed little cards, reading thus:—

Thank you!  
Yes, I had a splendid time.  
Oh, walking fishing, golf and so forth.

Yes, had quite a lot of rain.  
Hard to tear myself away? You bet, I ought to. I'm feeling fit as a fiddle.

And without a word he started in at his regular work.

**Teeth Like Stars**

John and Jeannie went for a walk one evening. After walking for some time in silence, John ventured to remark:—

Jeannie, your eyes are like diamonds.

Jeannie—Is that so, John? (Pause).

John—Jeannie your neck is like a swan's.

Jeannie—Is that so, John?

John—Jeannie, your teeth are like the stars.

Jeannie—How do you make that out, John? I can quite understand my neck being like a swan's and my eyes like diamonds, but how do you make out my teeth are like the stars?

John—Why, Jeannie, it's just because they come out at night.

Modern football is a direct descendant of an ancient Roman game called "harpagum," in which the object of the players on each side was to seize the ball and carry it, by some means or other, across a line marked on the ground in the rear of their opponent.

Sick headaches—neuralgic headaches—splitting, blinding headaches—all vanish when you take

Smokeless Shotshells  
"Leader" and "Repeater"  
The merits and weaknesses of shotshells are soon shown in trap shooting. Both amateur and professional season's averages were won in 1911 with Winchester Loaded Shells—"Leader" and "Repeater." Their exceptionally strong and even shooting qualities make them unsurpassed for bird shooting. They are all well made and carefully loaded, and will always give satisfactory results. The Red W on the box guarantees their reliability. Look for it when buying and you'll have  
Smokeless Loads that get the Game

**Backache Means Your Kidneys Want Help!**  
The kidneys are among the most important organs. They are most subject to periods of depression, inactivity and lowered vitality. Invariably, they give warning, in the form of backache, headache, pains in the joints, etc. Wise people, careful of their health, act quickly when any of these symptoms appear. Caricous or easy-going persons often permit a slight affection of the kidneys to grow into acute or chronic kidney trouble, ignoring the plainly-given warning of unhealthy kidneys. Prompt help is given inactive kidneys by DR. CLARK'S SWEET NITRE PILLS. They cleanse, tone, stimulate and restore the kidneys to normal vigor in quick time. Sold everywhere at fifty cents a box or mailed direct by

**The Question**  
Suppos. Bessie, (the teacher was trying to explain the meaning of recuperate) suppose your papa has worked very hard all day; he is tired and worn out, isn't he?  
Yes, madam.  
Then when night comes, and his work is over for the day, what does he do?  
Oh, replied Bessie, that's just what another wants to know.

**Interviewed**  
A reporter was once interviewing a famous English international footballer, and asked him how he liked being a professional footballer.  
Immediately, he replied.  
Ay, but well enough to bring your children up to it? said the reporter.  
No, he replied, not well enough for that.  
But why? asked the reporter.  
Because they're lasses, said he with loud laughter.  
The reporter collapsed.

## MR. J. S. WILLISON ON OUR FUTURE

With Land Trading Gone, Industrial  
Supremacy is Necessary to  
Permanency.

"Eventually the cities, towns and villages of the West will require industries to give employment to their workmen, to provide trade for their merchants, to stimulate their various local activities and to ensure their progress and maintain their prosperity."

"This passage is from a recent address by Mr. J. S. Willison, Toronto, before the Canadian Club at Winnipeg. He had pointed out that eventually there would be a decline in immigration, in land trading and in all the activities which arose from rapid increase in population. To take their place there must be industrial activity if progress was to continue."

"Without protection no nation ever achieved any considerable industrial supremacy," said Mr. Willison. "It may be that free trade is the true faith for a perfect world but either the faith is weakly held or the world is still very imperfect. I submit that protectionist duties were not imposed in Canada and have not been maintained for the special or exclusive benefit of manufacturers. Protection was established for a great national object just as certainly as the Canadian Pacific Railway was constructed for a great national object."

"By no force of logic, or effort of persuasion or act of parliament can you induce a whole people or even all the members of a single family to follow agricultural pursuits. In every family of three sons two will devote themselves to commercial or industrial avocations. For example between 1900 and 1910, notwithstanding the wide extension settlement in Western Canada, the rural population over the whole country increased by 16.48 per cent, and the urban population by 63.83 per cent, while the total rural population is 3,924,083 as against an urban population of 3,280,441."

**Growth of the Population.**  
"In Eastern Canada the increase of rural population was 1.6 per cent., and of urban population 48.8 per cent. In Western Canada the increase of rural population was 135 per cent., and of urban population 243 per cent. These facts at least prove the contention that only a percentage of the population will go upon the land and it follows inevitably that we will lose by emigration those for whom we do not provide employment in mercantile and industrial pursuits."

"Under the conditions which obtain in Canada with moderate protectionist duties, industries will follow population as under free trade Canadians would go to the industries of the neighboring country. It is only by a judicious system of protection that we can conserve our own natural resources which under sound policies of legislation and administration become chief sources of public revenue and the support of great industrial communities."

"Do you believe that the industries of older Canada could thrive if they were exposed to the unobstructed competition of the highly specialized and heavily capitalized industries of the United States, manufacturing for a protected market of ninety millions of people, or do you believe that against such competition any considerable number of industries could be established in the west in this generation?"

"In the United States for nearly half a century the chief agricultural states have been protectionist strongholds because they desired that their sons should have ample choice of a vocation and employment in their own country, because they believed that grain prices for exports were determined by the markets of Europe, and because they believed that any burden imposed by protection was offset by the higher prices of local markets, that local markets were essential to profitable general farming, and that farming devoted to a single staple product could never be a permanent condition."

"This may or may not have been sound reasoning but it was influential with American farmers under a very high tariff it may have significance for Canadian farmers under a very moderate tariff and particularly for western farmers whose prosperity will increase with the increase of home markets."

"Is it conceivable that by legislation you could create a separate free trade area in the United States, and maintain its population and prosperity at the level prevailing in the surrounding protectionist country or that the Canadian west can have wide diversity of interests, a thrifty and independent agriculture, eager local markets, busy factories and well paid mechanics, and prosperous merchants if we deliberately determine that it shall be an industrial dependency of the Republic?"

## Inspector A. J. Markle Assails Indian Parades

He Says Alberta Indians are Being Exhibited for Gain—  
Balking Efforts to Improve Conditions—\$75 Stampede  
Made \$50,000 For Someone

An Edmonton dispatch contains the following:

Bitterly assailing the practice of holding Indian parades and particularly directing his attack to the action of the Calgary Stampede committee in employing redskins in the recent pageant, J. A. Markle, of Red Deer, inspector of Indian agencies of Alberta, declared yesterday that efforts made by government authorities to raise the standard of Indian life are constantly thwarted by interference of persons "on the make."

While on one hand, the government is endeavoring to train the Indians in habits of industry, and to bring about general improvement in Indian conditions in reserves, private enterprise is allowed to step in and for purely selfish reasons exploit them ruthlessly, he declared.

"\$50,000 Made, he Charges  
"Somebody made about \$50,000 out of the Calgary stampede," said Mr. Markle. "Yes, somebody made a pretty big thing out of that, and it was we who supplied material for the show. It is futile to attempt to raise Indians and to lower them at the same time."

A newspaper man had suggested, he said, that this year's stampede would be the last of its kind.

"You can bank on it there'll be others so long as there's money in it," replied Mr. Markle. "All told there are today on Indian reserves of this province, some 5,000 Indians, wards of the government, and in these reserves, 7 tribes are represented. This Indian population has remained almost stationary for some years. Liquor is the principal check to the growth of the Indian population."

### Indians of Other Kind

"Under present conditions you could not keep them from getting booze with an army," he said, "there are other Indians than redskins, and when redskins want to get whisky it is the easiest thing in the world. Tuberculosis is often given as the reason for the heavy mortality on the reserves, but liquor is at the back of it."

During the present season 240 new buildings have been constructed under Mr. Markle's supervision.

Advertis in the Bow Valley Call.

## HALLOWE'EN SOCIAL

Thursday Evening Oct. 31st.—At  
the Home of Mr. and Mrs.  
J. McEwen's

On Thursday evening, Oct. 31st, the ladies of the Methodist church will give a Halloween Social at the home of Mr. and Mrs. J. McEwen. Take notice that everybody is invited and will be welcomed by the witches.

The Menu will be as follows:  
Ghost sandwiches.  
Goblin pie.  
Witch cake.  
Spook tea.

Games and musical entertainment will help to while away the hours of the good old Halloween. Come and enjoy yourselves. Admission 25 cents.

## Might Have Known, Had Gleichen Been Mentioned

New York Shoe Dealer Never  
Heard of Calgary, Thought  
It Was In Alaska

Calgarians are "awfully"—as the ladies would say—worked up because a shoemaker in New York had never heard of Calgary. A New Yorker dropped into the CALL office to remark that had Gleichen been mentioned in New York, the shoe man would have been wise at once. "Why we Yankees know where Gleichen is for sure. Why Gleichen won the world's prize for wheat right in New York."

"Good day."

Here is the hard luck story, the News-Telegram prints:

With publicity literature being distributed to all four corners of the world, with so many thousands flocking to Alberta's prairies, of which Calgary is the biggest city and the logical hub, that the United States government is holding meetings to implore loyal Americans not to leave their native land, it may be difficult to believe that there is a man on the continent who has not heard of this large and fast-growing place. But the original museum ignoramus has been located in the heart of New York by W. D. Milner, city manager for F. C. Lowes & Co., who has returned from a month's trip to Chicago, New York, Toronto, Minneapolis and other large eastern centers.

Speaking of his discovery of the eighth wonder of the world, Mr. Milner said he found him in a shoe store. He was buying a pair of shoes and made the remark to the man who waited on him that he wanted

them rather heavy. He told him he came from a city where he could stand the soles a little thick in winter.

"Where do you come from," asked the shoe seller.

"Calgary," replied Mr. Milner with a noticeable inflation of his well developed chest.

"Where is that?"

"In Canada."

"Yes, but in what part of Canada, somewhere near Alaska?"

Mr. Milner remembers paying for his shoes when he recovered. He says he will recollect America's largest city not for its skyscrapers, the Battery museum, the brown stone fronts of Fifth avenue, or any of its many interesting sights, but because it was the place where he unearthed the man who had never heard of Calgary."

D. L. Brereton, farm instructor on the Reserve, went to Calgary a week ago to be treated for rheumatism with which he has been suffering for sometime past. It will be pleasing to his friends to learn that he is now improving.

For a B. C. investment see F. L. Harris' ad. in this issue.

## ONE DOLLAR DOWN AND ONE DOLLAR PER WEEK

For five years pays for an improved fruit tract in B. C. At the end of the five years it should bring you in \$500 to \$1,500 per year.

Actual Government Reports for the Kootenay Lake District show greater results from ONE ACRE

There is hardly a man, woman or child in the United States or Canada who cannot afford One Dollar Per Week to establish a home in an ideal country like the famous Kootenay Lake District. In five years a clear title to one acre of improved bearing orchard is delivered to you or your heirs.

I have set aside five hundred acres of choice fruit land, and as soon as I have sold that out your opportunity is lost. I want every man, woman or child who reads this ad to send in their dollar at once and secure an acre tract on the above terms. Write for full particulars of the best offer ever made to those who wish a home in an ideal climate, where you will have honest and congenial neighbors.

I sell five, ten and twenty acre tracts on very easy monthly payments. Also give a big discount for cash. Join one of my monthly excursions and see the country for yourself. I have sold to several hundred people since January 1st. I live there myself. Have my own fruit ranch on the shores of the beautiful Kootenay Lake. I want you for my neighbor in B. C., and I am sure you will want to be when you see the country. My new way to grow apples will interest you. Also the famous Kootenay Magazine tells all about the fruit and other industries of Southern B. C. Subscription price \$2.50 per year, or sent free for a year on receipt of twenty names of friends or relatives who might be interested in B. C. fruit lands. My booklet, "Home-seeking," tells you how I spent five years in the West looking for what we all want—an ideal location for a home. It's free.

Write today, giving name of reliable reference, your nationality, and amount you wish to buy.

**F. L. HARRIS**

## Farm and Garden

### DOES YOUR SOIL NEED LIME?

Best Way to Find Out is to Make Test by Means of Clover.

Lime, considered as the source of the element calcium, is one of the ten absolutely essential plant foods. As such it is required in only small amounts, and it is probable that nearly all soils contain enough to satisfy the direct needs of the plant, says a circular of the Purdue university, Indiana, agricultural experiment station.

The one best way to tell whether or not the soil needs lime is to try it and see, and the place to try it is on the clover crop. A good plan is to apply ground limestone at the rate of two tons per acre and harrow in before sowing wheat, and in the spring sow clover as usual. The clover may fail because of shortage of plant food or bad physical condition of the soil even on the limed land, so it is best to use a light application of manure in connection with the lime.

CLOVER HEAPS AT TENNESSEE EXPERIMENT STATION.

(Larger heap shows clover grown on limed soil; smaller, clover grown on unlimed soil.)

tion with the lime on a part of the limed strip. In case there is a stand of clover on both limed and unlimed land, the two areas should be harvested and weighed separately to determine whether or not the lime has made sufficient gain to justify its use.

Acids turn blue litmus paper red, and this test has been recommended for soil acidity, but we do not regard it as entirely satisfactory. However, for the information of those who may wish to try it, we give the following directions: Place a strip of blue litmus paper between two wider strips of filter paper, break open a moist clod, place one end of the strips of paper in the fracture and press the clod firmly together. In about ten minutes remove the litmus paper and pin it up to dry by the end which was left out of the soil. A change to pink or red which lasts after the paper is dry indicates acid. Do not handle the end of the paper used for testing or allow anything to touch it. Repeat the test with different samples, and if doubtful test the subsoil, which is generally more acid than the surface soil. Blue litmus paper and filter paper can be bought at any drug store.

\*\*\*\*\*  
**GOOD ADVICE.**  
\*\*\*\*\*  
Jack, when ye hae naething else to do ye may be aye sticking in a tree. It will be growing.  
Jack, when ye're sleeping. From "The Heart of Midlothian," by Sir Walter Scott.  
\*\*\*\*\*

**Cash From Waste.**  
As soon as possible after the small grain is harvested turn the stock into the fields to glean the waste grain and clean up the fence rows. A part of the money the land has produced still remains in the field after the grain has been harvested and removed. An animal can make available cash out of the waste crops.

**Get It on the Land.**  
There is no month in the year when manure cannot be hauled and scattered on the fields to advantage. It is better on the land than in the stables and lots.

### With the Feathered Folk.

Lack of grit, overfeeding and the insect cause liver trouble.

When alfalfa or clover hay is stored in the barn it will be easy to gather a quantity of the leaves that shatter off, and these are prime feed for all classes of poultry.

Dry feed has no place in the duck diet. Four parts wheat bran, one part cornmeal and enough low grade flour added to blind the mass without making it pasty, about 5 per cent sharp grit moistened with just enough water to be crumbly is a good ration. After the first few days a little soaked leaf scrap may be added, though not necessary if the feed is moistened with milk.

Sore legs in fowls are caused by a mite which finds its way under the scale and causes the legs to become diseased, rough and painful. These mites cannot survive grease or oil. The remedy is the application of either Kerosene will have the effect of destroying the natural color of the legs. The use of bird, meat fryings or grease will do the work.—Kansas Farmer.

### FOOL THE KICKING COW.

Simple Device That Prevents Her From Putting Her Foot into Milk Pail.

The illustration herewith is a simple device to keep a cow from kicking. It consists of two pieces of rope about four and one-half feet long and a piece of an old fork handle across the cow's back. Insert an eyebolt in the floor to the left of the cow about halfway up toward the feed box, then fasten your piece of rope in this ring and to the fork handle just about the height of the cow's back. Fix the other side in like manner, excepting that the eyebolt be put farther back so as to al-

ANTI-KICKING DEVICE.

(From the American Agriculturist.)

low room for milking operations. This apparatus is left fastened on the left hand side and thrown back across the partition when not in use.

Just before milking the cow is fastened in the stall, and this is thrown across and fastened in the ring on the right hand side. This is especially good for the cow that is in the habit of putting her foot in the milk pail. She cannot raise her foot without bowing her back somewhat, which this prevents. And if she persists in doing this trick tighten up the rope on the right hand side. The object in fastening it to the floor is that it gives her a certain amount of freedom, and if she moves backward and forward it tightens. After a time the cow gets accustomed to this, and if it is simply laid across her back she will not move a foot. I have used this in a number of bad cases and found it works to perfection, says a correspondent of the American Agriculturist.

### FARM BUTTERMILKING.

No Reason Why It Should Not Beat Creamery Product in Price.

Butter made from a single wheel of cows in a small dairy located on the farm, says a Washington state bulletin, should command the highest price of any butter on the market.

The first essential in making good butter is good cream. To get this simply means to take ordinary precautions regarding clean cows and barn, clean attendants and clean utensils and then cooling the cream at once after separating, either by running it over a cooler or by setting it in running cold water and stirring. Cream should not be stored with any substance having an aroma. Sweet cream churns hard and gives a butter having a flat taste. To sour or ripen the cream, heat it to about 70 degrees F. (use a thermometer) and let it stand until it has a mild but distinctly acid taste, or, second, add some sour milk or buttermilk (starter) to start the ripening, at the same time holding it at 70 degrees. The best cream for churning is that which tests about 30 per cent fat after starter has been added.

The temperature at which the cream should be churned depends on the size of fat globules, hardness of fat globules, age of the cream, percentage of fat in the cream, kind of feed the cow is getting, and this cannot be determined except by trial. Thirty-five degrees may be proper on one farm and 90 degrees on the one adjoining. A good rule to follow is to have the butter come about the size of wheat kernels in about thirty or forty minutes.

While the granules are about the size of wheat the buttermilk should be drained, the granules washed and the salt added. Then they are worked together, only enough to distribute the salt evenly. When the churn is not stopped until the granules become large some of the buttermilk is increased, and it makes butter of poor keeping quality.

Mottles in the butter are caused by an uneven distribution of salt in the presence of buttermilk.

\*\*\*\*\*  
If we use but one crop on the land and rotate it with corn or the like the soil will quickly be robbed of its elements. Therefore we must follow a proper rotation in order to supply nature without which we can do little. Some men have never discovered this fact, however.  
\*\*\*\*\*

### Warning.

The Florists' exchange reports the death of a child in Oregon from eating the berries of the Virginia creeper, Ampelopsis quinquefolia, which had not previously been regarded as poisonous, though the bark, sometimes used cautiously in medicine, appears to possess poisonous properties.

### Saving Many Steps.

Can you bang a rod through the shed to open the door to let the cattle out the back way, closing the door with a lever? It will save you three miles a year. Think it over.—Farm and Fire side.

## My Kingdom

Down by the shining water well  
I found a very little dell,  
No higher than my head,  
The heather and the gorse about  
In summer bloom were coming out,  
Some yellow and some red.

I called the little pool a sea;  
The little hills were big to me;  
I made a boat.  
For I am very small.  
I made a boat, I made a town,  
I searched the caverns up and down,  
And named them one and all.  
And all about was mine, I said,  
The little sparrows overhead.  
The little minnows, too.  
This was 're world, and I was king.  
For me the bees came by to sing.  
For me the swallows flew.

I played there were no deeper seas,  
Nor any wider plains than these,  
Nor other kings than me.  
At last I heard my mother call  
Out from the house at evenfall,  
To call me home to tea.

And I must rise and leave my dell,  
And leave my dimpled water well,  
And leave my heather blooms,  
Alas, and as my home I neared,  
How very big my nurse appeared,  
How great and cool the rooms!

—Robert Louis Stevenson

## Defined

Here, Willie, cried the boy's father,  
everybody will be calling you a little  
glutton. Do you know what that is?

I suppose, said Willie, it's a big  
glutton's little boy.

## Uncle's Undoing

Uncle, said little Johnny, tell me  
how you charged with your war-horse  
up the Potomac's Drift at the  
head of your troops.

Well, said the battle-scarred veter-  
an, I mounted the fiery animal, drew  
my sword from its scabbard,  
and sank the spurs deep in the quiv-  
ering flanks of my gallant steed.

Yes, said the boy breathless, y go  
in, uncle, tell me the rest of it!  
There isn't any rest Johnny, said  
uncle, with a sigh. The horse  
bucked.

## Mrs. H. VON RODEN of LYNDON, KY.

Recommends Lydia E. Pink-  
ham's Vegetable Compound  
for Backache, Nervous-  
ness, Headaches.

Lyndon, Ky.—"I have been taking  
Lydia E. Pinkham's Vegetable Compound  
for headaches, neuralgia pains, backache,  
nervousness and a general run down con-  
dition of the system, and am entirely re-  
lieved of these troubles. I recommend  
your remedies to my friends and give  
you permission to publish what I write."  
—Mrs. H. VON RODEN, Lyndon, Ky.

When a woman like Mrs. Von Roden  
is generous enough to write such a let-  
ter as the above for publication, she  
should at least be given credit for a sin-  
cere desire to help other suffering women,  
for we assure you there is no other rea-  
son why she should court such publicity.

**Canadian Woman's Experience:**  
Windsor, Ont.—"The birth of my first  
child left me a wreck with terrible weak-  
ness, but I am glad to tell you that I do  
not have those weak  
spells and I feel like  
a new woman since  
taking Lydia E. Pink-  
ham's Vegeta-  
ble Compound. I am  
now well and strong  
and can do my own  
housework. I do  
not take medicine of  
any kind. It was  
Lydia E. Pinkham's  
Compound that restored me to health."  
—Mrs. ROBERT FAIRBANK, 72 Parent  
Avenue, Windsor, Ontario.

If you want special advice write to  
Lydia E. Pinkham Medicine Co. (confi-  
dential) Lynn, Mass. Your letter will be  
opened, read and answered by a  
woman and held in strict confidence.

## SUCCESS OF WINNIPEG PERMANENT EXPOSITION

Industrial Bureau's Big Display of In-  
dustries and Natural Resources  
Attracts Thousands

Community advertising has been  
adopted so generally throughout West-  
Canada, that the subject is one of  
general importance, and methods suc-  
cessfully carried to completion are of  
absorbing interest to many Western  
Canadians.

No other city on the American Con-  
tinent has a finer or better equipped  
permanent exposition, featuring indus-  
tries and the Natural Resources of  
the country, than has the city of Win-  
nipeg. This big permanent and free  
exposition, conducted under the aus-  
pices of the Winnipeg Industrial Bu-  
reau, was started last Spring and dur-  
ing the past six months, Commissioner  
Chas. F. Roland estimates, has  
been visited by 700,000 people.

In addition to the fifty-four exhibitors of  
local industries, there are now 24 dis-  
tricts of the West, which have secured  
space and are advertising their com-  
modities in this exposition. The  
places represented at the present time  
in this handsome and conspicuous edifice  
on Main Street, are: Brandon,  
Man.; Portage la Prairie, Man.; Re-  
gina, Sask.; Salteaux, Sask.; Dauphin,  
Man.; Melfort, Sask.; Souris,  
Man.; Yorkton, Sask.; Melita, Man.;  
Prince Albert, Sask.; Emerson,  
Man.; Oak Lake, Man.; Camrose,  
Alta.; Selkirk, Man.; Moose Jaw,  
Sask.; Birtle, Man.; Lemberg, Sask.;  
Virden, Man.; Lacombe, Alta.; Swan  
River Valley, Man.; Vermillion, Al-  
berta.; Swift Current, Sask.; Estevan,  
Sask.; and Battleford, Sask. In  
addition to these there are handsome  
and costly exhibits of the Natural Re-  
sources of the West, by the Dominion  
and Manitoba Provincial Governments  
and the Canadian Pacific and the Cana-  
dian Northern railways.

With this splendid representation of  
farm, forest and mine of the Canadian  
West, arranged in attractive form in  
easily accessible and central position  
in the metropolis of the prairies, its  
value as a factor in the settlement of  
the country cannot well be over-  
estimated, and so popular has the Ex-  
position become as an adjunct to local  
methods of publicity, that the Indus-  
trial Bureau are now completing  
extensive additions to the floor space.  
This will accommodate a number of  
exhibits of "Made in Winnipeg" goods  
and will provide another opportunity  
for a limited number of ambitious  
communities to secure space.

In Winnipeg, the gateway city of  
the West, all the year round will be  
found visitors from all parts of the  
World, in search of opportunity in the  
many attractive forms this land of  
promise presents. In the perman-  
ent exposition that city has exactly  
what it needed to arrest the immedi-  
ate attention of the stranger. In-  
deed this "temple of opportunities" as

It has been called, is usually one of  
the first places the sightseer visits  
in Winnipeg. Here the visitor may  
catch, almost at a glance, a good idea  
of the sort of city Winnipeg is, and  
what sort of country lies between the  
capital of Manitoba and the Rocky  
Mountains. Here he will obtain in-  
formation, maps, photographs and ac-  
tual products of the soil of the district  
in which he is interested, perhaps  
thousands of miles away. Specific  
information may be obtained on en-  
quiry, and the railways represented  
will show how the district may be  
reached or a tour of inspection con-  
ducted in, the best possible way. If  
such a visitor is interested along in-  
dustrial lines he has before him ocu-  
lar demonstrations of what is being  
done locally and will be told of opor-  
tunities offered in his particular line.

This sort of investigation, which pre-  
viously might have taken days, can  
be conducted with the aid of the Bu-  
reau's Exposition and staff in a few  
hours, and reliable information secured  
regarding sources of supply and  
raw material, transportation facilities,  
freight rates, trade possibilities, and  
in short all manner of information per-  
tinent to his enquiry, under one roof  
and obtainable without effort on his  
part.

Of course the building has other  
uses, combining instructive displays  
of "Made-in-Winnipeg" goods, museum  
and art section and numerous meet-  
ing places, including a large Con-  
vention Hall capable of accommodating  
4500 people and other features of lo-  
cal interest, and it is indeed, becoming  
the public forum and centre of civic  
life in Winnipeg.

Here, visitors from Western Cana-  
dian points are also made welcome,  
for it is the belief of the Winnipeg  
Industrial Bureau that the develop-  
ment and progress of Winnipeg are  
closely identified with that of the great  
agricultural West.

**These Pills Cure Rheumatism.**  
To the many who suffer from rheu-  
matism, a trial of Parnelee's Vegetable  
Pills is recommended. They have pro-  
nounced action upon the liver and kid-  
neys and by regulating the action of  
these organs act as an alternative  
in preventing the admixture of uric  
acid and blood that causes this pain-  
ful disorder. They must be taken  
according to directions and used steady-  
ly and they will speedily give evi-  
dence of their beneficial effect.

As the Sunday school teacher en-  
tered her classroom she saw leaving  
in great haste a little girl and her still  
smaller brother.

Why, Mary, you aren't going  
away? she exclaimed in surprise.  
Pleathe, Mith Anne, we've got to go,  
was the distressed reply. Jimmy's  
hallowed bith collection.

## New Trans-Pacific Steamships

All Trans-Pacific records are expected  
to be broken when the Canadian  
Pacific Railway puts into service its  
two new steamships, the Empress of  
Russia and the Empress of Asia. The  
Empress of Russia was launched a  
couple of weeks ago at the yards of  
the Fairfield Shipbuilding and Engi-  
neering Company at Glasgow, Scotland,  
and as a result, will be the first of the  
two new vessels to feel the swells of  
the Pacific. In the meantime, while  
the vessel is being completed, much  
discussion is heard among traffic men  
as to just what effect the new boats  
will have on Trans-Pacific shipping.  
Canadian Pacific officials themselves  
believe that the introduction of the  
new boats into the service between  
Canada and the Orient will mark a  
new epoch in traffic on the Pacific.  
Certain it is, however, that whatever  
other results are felt, all present re-  
cords for fast voyages between Cana-  
da and Japan and China will be con-  
siderably lowered. The Empress of  
Japan at present holds the record for  
the fastest voyage the Pacific, having  
made the distance between Vancouver  
and Yokohama in 10 days, 10 hours,  
and 4 minutes, and between Van-  
couver and Hong Kong in 17 days, 10  
hours and 16 minutes, inclusive of  
stops. The Japan however, has only a  
contracted speed of 18 knots on the  
measured mile and 16 knots on a sea  
trip, while the new Empress steamers  
are designed for a speed of 20 knots  
per hour. This great advantage in  
speed will undoubtedly mean a big re-  
duction in the duration of a Trans-Pa-  
cific voyage, and in fact, some shipping  
men are of the opinion that the Em-  
press of Russia will cut almost 24  
hours off the Empress of Japan, Van-  
couver-Yokohama.

## ONLY ONE WAY TO CURE RHEUMATISM

It Must Be Treated Through the  
Blood and the Poisonous Acid  
Driven Out

The twinges and tortures of rheu-  
matism are not due to cold, damp  
weather as so many persons suppose.  
Rheumatism comes from poisonous  
acid in the blood. This is a medical  
truth which every sufferer should real-  
ize. There is only one way to cure  
rheumatism—it must be treated  
through the blood. All the liniments  
and rubbing and so-called electric  
treatment in the world will not cure  
rheumatism, and the sufferer who  
tries them is not only wasting money,  
but is allowing the trouble to become  
more deep-rooted in the system and  
harder to cure when the proper re-  
medy is tried. Dr. Williams' Pink  
Pills make the new, rich blood of  
health, and in this way drive out the  
poisonous acid which causes rheu-  
matism. Thousands of instances of  
cures might be given, among which  
is the following one. Mrs. G. R. Dul-  
mage, Cherry Valley, Ont., says: "I  
was attacked with rheumatism which  
gradually grew worse, until I was con-  
fined to my bed. For about two  
weeks I had to be shifted and turned  
in bed as I was utterly unable to help  
myself. I was under the doctor's  
care and so far recovered that I was  
able to get up and move about, but  
the trouble still remained in my sys-  
tem. If I put my hands in cold wa-  
ter, or if I went out in the evening or  
in damp weather the trouble would  
return, and for four years I thus suf-  
fered from rheumatism, until I began  
to think it could not be driven from  
my system. Finally I gave up all  
other medicine and began to use Dr.  
Williams' Pink Pills, and after using  
them for a couple of months I was  
completely cured and have not had  
a twinge of rheumatism since. I can  
recommend the Pills to anyone  
suffering from this trouble."

These Pills are sold by all medicine  
dealers or by mail at 50 cents a box  
or six boxes for \$2.50 from The Dr.  
Williams' Medicine Co., Brockville,  
Ont.

In England the first dock was con-  
structed at Liverpool in 1708.

When going away from home, or at  
any change of habitat, he is a wise  
man who numbers among his belong-  
ings a bottle of Dr. J. D. Kellogg's  
Dysentery Cordial. Change of food  
and water in some strange place  
where there are no doctors may bring  
on an attack of dysentery. He then  
has a standard remedy at hand with  
which to cope with the disorder, and  
forearmed he can successfully fight  
the ailment and subdue it.

China has sixty-four treaty and  
other ports open to foreign trade.

**Minard's Liniment for sale everywhere**

For the United Kingdom the aver-  
age strength of the Regular Army is  
252,000, including officers and men.

**Very Mortifying**

A doctor and his friend were out  
walking together one day, and they  
passed by some houses which the  
doctor had built and owned, and  
which he could seldom let. The  
doctor remarked to his friend:

I lost money when I built these  
houses.

Yes, said his friend, what you gain-  
ed in the battle you lost in the mor-  
ar.

THE COWAN CO.  
Limited  
Toronto, Ont.

Will you be one of the 108  
farmers who will receive  
our Prize Contest checks?

THERE will be twelve cash prizes in  
each of the nine provinces (108 in all)  
in the 1912 Prize Contest for Canadian  
Farmers. The 1911 Contest was so successful in awak-  
ening interest in the use of Concrete on the farm, that a  
second contest, in which three times as many prizes are  
offered, was decided upon for this year.

The Contest this year is divided into three classes, "A,"  
"B" and "C," and there will be four prizes in each class. (First  
prize, \$50; Second prize, \$25; Third prize, \$15; Fourth prize, \$10.)  
Thus there are three \$50 Prizes, three \$25 Prizes, three \$15  
prizes, and three \$10 Prizes, for each province.

**DESCRIPTION OF CLASSES**

In Each Class there will be First, Second, Third and Fourth Prizes  
(\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most  
"Canada" Cement on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photo-  
graphs of the best concrete work done with "Canada" Cement on their  
farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send in  
the best description, telling how any piece of concrete work was done with  
"Canada" Cement. (Entries for this prize must be accompanied by photo-  
graphs of the work.)

Don't think that you must use a large quantity of cement in order to  
win a prize. The quantity of cement used does not count in Classes "B"  
and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash  
prize of \$50 as well as the certainty that you will add a permanent  
improvement to your farm. If you haven't a copy, be sure and ask for  
our book, "What the Farmer Can Do With Concrete." It will not  
only suggest many improvements that you can use in entering the Contest,  
but will tell you all about the use of concrete on the farm.

Just write your name and address on the attached coupon, or use a  
postal card, and we will send full particulars of the Prize Contest  
and a copy of "What the Farmer Can Do With Concrete" to you  
absolutely free.

## WHAT'S AT THE BOTTOM OF KIDNEY TROUBLE

There are many causes at the bottom  
of an attack of kidney trouble—over-  
eating, over-drinking, heavy colds—these  
and other causes often cause illnesses  
such as kidney trouble, gall-stones, kid-  
ney-stones, gravel, lumbago. But no  
matter what is at the bottom of the dis-  
ease, there is now a sure and safe cure,  
one that acts quickly and without fail.  
That remedy is **SANOL**, which is already  
well-known to the medical profession of  
Canada as well as to thousands of suf-  
ferers from the disease named above.  
One Winnipeg lady who is well and wide-  
ly known, was cured of Gall-stones by  
**SANOL**, after suffering for 12 years. So  
grateful was she, that she has sent to us  
a large number of people to be relieved  
of similar complaints. We do not care  
where the reader of this paragraph re-  
sides, we can give him or her names and  
addresses of people in his own town and  
locality who have been cured by **SANOL**.  
We will also give the name and address  
of the lady referred to, whose complaint  
had troubled her for such a long period,  
and who is now completely cured.

**SANOL** is manufactured only by the  
**SANOL MANUFACTURING COMPANY**  
OF CANADA, LTD., 277 Main Street,  
Winnipeg. For sale by all druggists or  
direct from the manufacturers at \$1.50  
per bottle.

## SANOL IS SAFE AND SURE

**Behind and Before**

The patience of the sergeant-major  
was well nigh exhausted. The re-  
cruits in the riding-school were hope-  
less. It seemed as if none of them  
had ever had any previous acquaint-  
ance with a horse.

One of them seemed, if possible,  
worse than the rest. He had a per-  
sistent habit of turning his head  
round to have a look at the rear of  
his fiery steed. The sergeant-major  
had already remonstrated with him,  
but to no avail.

Look here, my son, he roared. Have  
you never seen a horse's tail before?  
No, sir, came the smart and prompt  
reply. I have always seen it be-  
hind!

Poor old Jones! He had a windfall  
last week.

A windfall? Then why do you say  
poor Jones?

Well, you see, he's an aviator.

**Minard's Liniment Cures Dandruff.**

Salaries of professional baseball  
players in the United States of Amer-  
ica range from \$5,000 to \$10,000 for a  
season of six months.

## Deceiving Poor Polly

The Goodleys have a sailor son,  
who on one occasion brought home  
a parrot for the amusement and en-  
lightenment of the family. They kept  
it for the sake of the donor—on no  
other account would it have been  
given house room. Of course, it was  
a perfectly respectable bird—occasion-  
ally; but on Sunday evenings, when  
young Mr. Saintry paid his regular  
visit, it was deemed advisable to cover  
Polly with a cloth.

Recently, however, Mr. S. took ad-  
vantage of the half holiday accruing  
to him through the Shops Act, and  
made an extra call on the Wednes-  
day. As he was ushered in Miss  
Mary Goodley dexterously threw the  
cloth over Polly's cage. Greetings  
over, there ensued the usual awkward  
pause, which was broken by a squawk  
from the covered cage.

Well, I'll be everlastingly blessed,  
said Polly. This has been a thun-  
dering short week.

Scene: A smoking compartment in  
a railway carriage.

Old Gent (to Pat, on furlough)—  
Young man, allow me to inform you  
that out of every ten cases of men  
suffering from paralysis of the tongue  
nine are due to smoking.

Private Pat—Sorr, allow me to in-  
form you that out of every ten men  
suffering from broken noses, none  
are due to the habit of not minding  
their own business.

Esperanto has more than a hundred  
magazines and journals of its own,  
which circulates in every civilised  
country.

## SHAW'S SCHOOLS

The Central Business College, To-  
ronto, with Four City Branch Schools.  
—The Central Telegraph and Railroad  
School and The Shaw Correspondence  
School, are now commonly known as  
"Shaw's Schools." In these schools  
a great work is being done in training  
young people for business pursuits  
and for earning good salaries. The  
annual curriculum is interesting and  
is mailed free on sending request to  
W. H. Shaw, President, Toronto, Ont.

A good story is told about a certain  
notorious mafactor, which is calcu-  
lated to make newspaper reporters  
uncertain and uneasy as to their ulti-  
mate fate.

The criminal had been sentenced to  
death, and the last penalty of the law  
was about to be enforced. As he  
stood on the scaffold while the final  
arrangements were completed, he  
shook hands with the governor of the  
gao, the chaplain, and even the hang-  
man; but to the newspaper man who  
was present he simply nodded, non-  
chalantly, saying:

Ta-ta, old man. See you later on.

No person is qualified to be elected  
a borough councillor unless he is a  
borough elector of the borough, and  
has during the whole twelve months  
preceding the elections resided in the  
borough.

P.O. Box 13 Telephone No. 12  
W. PARK EVANS, Publisher and Proprietor.

Gleichen, Alberta, October 24, 1912

## Fire Prevention Day a Necessity

Gleichen might well follow the example set by Edmonton and New York and appoint a Fire Prevention Day. New York was the first place to put this innovation into practice, and it is said to work to great advantage. The idea is to have the mayor set a certain day and make an appeal to all householders, storekeepers, etc., to make every effort on that day to destroy any inflammable material or refuse which exists on their premises and in the lanes and streets. The real mother of innovation, as well as invention, is, however, Necessity. Gleichen really needs this—Prevention—very much.

Loss by fire is far more prevalent on the American continent than in any other civilized country. The following statistics prove this: The percentage of loss per \$100 capital on the American continent is \$2.70, as against 33 cents for Europe in general, and only 19 cents for the German Empire, where municipal organization is admittedly the most efficient. Although the more frequent use of wood for building purposes in the United States and Canada may tend to exaggerate the danger and consequently the percentage of damage we have no hesitation in saying that public carelessness is more responsible for the conspicuous inequality in the statistics of loss.

One of the many advantages which are attached to a young nation like Canada, and especially to a modern municipality like Gleichen is the continual opportunity of profiting by the experience of others. We would appeal to the residents to give their hearty co-operation to the civic authorities in a seasonable appeal which they should make. The exercise of care in the preservation of life and property is the duty of the individuals of a community no less than of the authorities and we are convinced that if the citizens of Gleichen will seriously and sincerely consider the proposition, the percentage of loss in this town would thereby be considerably reduced. If the people are careful, the civic departments are sure to profit by the excellent example.

## Commerce Takes First Place

Gleichen is fortunate to be able to claim to have a bank that now takes the lead in Canada, and therefore, our farmers need lose no sleep when they deposit their big wads from their crops this year. An Ottawa despatch is responsible for the statement that the monthly bank statement showing the condition of the Canadian chartered banks on September 30, just issued, contains two unusual features. The Bank of Montreal drops from first place as regards total deposits and total assets and the Canadian Bank of Commerce takes first place in these particulars.

## 273,749 Immigrants in Last Six Months

During the six months April 1 to October 1 of the current fiscal year, 273,640 immigrants arrived in Canada. Of this number 183,990 arrived at ocean ports and 89,650 from the United States. These figures show an increase of 13 per cent, as compared with the number of arrivals for the corresponding months of last fiscal year, which were 166,514 at ocean ports and 83,317 from the United States, making a total for the six months April 1 to October 1, 1911, of 249,831.

During the month of September this year there were 31,140 arrivals, 20,690 arriving at ocean ports and 10,450 from the United States, as against 29,077 for September last year, 17,694 of whom were at ocean ports and 17,484 from the United States.

The immigration to Canada for the last half year is considerably greater than the entire population of Montenegro, the country, which a few days ago, declared war against Turkey.

The electoral district of Carleton, Ont., has, according to the census of 1911, a population of 28,147; it will be seen that the immigration during the last six months is more than equivalent to the population of nine such districts.

Supposing that all the immigrants who arrived during the last six months were in line of march one pace apart, in a line, the procession would reach more than one hundred and fifty miles.

## Farmers Union of Alberta

The local branches of the United Farmers of Alberta are admittedly about the most persistent bunch of farmers the CALL has ever met and they are evidently undertaking some big propositions. It has always

been a by-word that farmers cannot unite, but it now appears our local men intend to disprove this allegation. Already they have accomplished some important business and it remains to be seen whether or not they will be able to carry out the big undertakings they have in hand. The past few months they have seen fit to only provide newspapers with partial reports of their meetings and while the CALL has been favored with these reports we have been obliged to place them under the heading of "Communications" for the reason that they are supplied in such a manner that we could not claim them as full reports of the meetings from a reporters stand point and that frequently they contain the opinions of the association that a newspaper could not endorse without having full details of the meetings and the subjects discussed. While the CALL cannot hold responsibility for the supplied reports, we may say that we are pleased to be of use to the farmers so long as they are responsible for the opinions and in reason will ever be willing to publish anything that they believe will prove beneficial to them.

## THE ALFALFA GROWERS ARE TO BE BANQUETED

Alfalfa Prize-Winners and Gleichen Water Master to be Guests to Receive Their Rewards

All Canadian and U. S. Land Agents Will Convene at Calgary, Oct. 26th

In addition to winning \$750 in prizes for the best ten acres of alfalfa grown in the Bow Valley this year the winners are to be guests at a grand banquet in the King George Hotel at Calgary on Friday evening, Oct. 25th, by the officials of the Canadian Pacific Railway Company when their prizes will be presented to them. Messrs. Allgood, Bollinger, Page, Williams and Rouche are the winners and E. G. Calkins, the Gleichen water master is to get \$100 for having the district in which the greatest area of alfalfa was sown. The Shaughnessy cup for all-round agricultural ability displayed by a resident of the Nightingale colony will also be presented to John Elliott.

The general land agents of the Canadian Pacific Railway in the United States and Canada, and the publicity correspondents of that company will convene at Calgary on that day. Last year Mr. J. S. Dennis, assistant to the president and head of the Department of Natural Resources, brought the land agents together at two different points in the United States—Chicago for the Middle west and the East, and Portland for the West and Pacific Coast. These two meetings were so successful that Mr. Dennis decided to follow up the policy, but instead of the two separate meetings to hold one monster congress at Calgary headquarters.

The convention will be held in the Natural Resources building and will be attended by representatives of the company by nearly every State of the Union and every Province of the Dominion. In addition to these, the Western Canadian correspondents of the publicity branch will attend, and all matters of interest will be thoroughly discussed. The program provides for morning and afternoon sessions on the date mentioned and

the banquet in the evening. On Saturday, Oct. 26, the party will leave by special train for a trip through Central Alberta and Saskatchewan to personally inspect the lands they will assist in colonizing in those districts. It is hoped they will make a stop at Gleichen.

## Thanksgiving Turkeys Will be Scarce

Thanksgiving turkeys are going to be scarce this year and the price is to be accordingly high.

This sad intelligence was broken yesterday by several of the leading poultry dealers of the city. According to the best information obtained "new" turkeys—not the cold store—are variety—will be exceedingly hard to get. Both varieties of the bird will cost from thirty-five to forty cents per pound by the time the day for giving thanks rolls around.

The "trimmings" for the thanksgiving spreads are not quite so difficult of purchase. Cranberries are retaining at two pounds for thirty-five cents, oranges run from thirty to sixty cents per dozen and apples are in the neighborhood of \$2 per box.

But then turkey is not absolutely essential to a delightful Thanksgiving dinner. Ducks and geese are plentiful, reasonable of price, and delicious eating. Neither are chickens to be scorned.—Calgary News Telegram.

Remember the date of S.L. Taube Eye-sight specialist, of the Taube Optical Company, of Calgary and Vancouver, who will be at Yates' Drug store, Gleichen, Alta., Wednesday, Oct. 30th. If there is anything wrong with your eye sight don't fail to consult him. All work guaranteed as tested.

## THE CROP ESTIMATE

SEPTEMBER RAINS WERE THE CAUSE OF SOME DAMAGE

A Little Early Yet for Final Estimates on Total Extent of Crop, but the Average Yield is Expected to be Higher Than Last Year. Little Damage From Frost.

Ottawa.—A bulletin issued by the census and statistics office covers the crop condition in Canada for the month ended September 30. It states that during this month wet weather continued to prevail over most parts of Canada, especially over the provinces of Quebec, Ontario and Manitoba. At Sept. 30, large areas of grain both in the east and in the west were still either uncut or were exposed to the wet in stock. Much damage has been caused by sprouting and in the north-west provinces second growth has in numerous instances caused uneven ripening and consequent lowering of grade. Frost during September in these provinces did some damage, but as a rule only late crops, including flax, were seriously affected. In parts of Southern Ontario the ground is so wet that many farmers have abandoned the sowing of the fall wheat for next year.

The estimates of the yield published a month ago could only be regarded as of preliminary value, because in consequence of the bad weather and late seasons harvesting operations had made so little progress.

The new estimates of yield obtained from correspondents at the end of September confirm generally the previous estimates for most of the crops, but inasmuch as very little threshing had been possible and large areas of the grain were still unharvested, it is feared that the final estimates after completion of the threshing, may turn out lower than the figures now given. For spring wheat the estimated production is 188,816,600 bushels, as compared with 189,904,500 bushels last year.

For fall wheat the estimate is 16,868,700 bushels, compared with 26,014,000 bushels last year, the total estimated wheat production being therefore 205,685,300 bushels as compared with 215,918,500 bushels in 1911 a decrease of five per cent. The yield per acre is 21.08 bushels for all wheat as against 20.77 bushels last year. Oats show a total production of 381,502,000 bushels, compared with 348,585,600 bushels last year, the yield per acre being 41.39 bushels, compared with 37.75. Barley is estimated to yield a total of 400,395,100 bushels compared with 400,631,000 bushels last year; the yield per acre 31.00 bushels against 28.94. The total production of rye is 3,086,000 bushels against 2,688,800 bushels in 1911, the yields per acre being respectively 20.75 and 17.41 bushels of oats, barley and rye, increases in total production as compared with last year represent percentages of 9, 8 and 15.

## FATHER VAUGHAN IN WEST

Noted Cleric Gives Utterances to Characteristic Advice

Moose Jaw.—The Rev. Father Bernard Vaughan, S.J., was in Moose Jaw recently and interviewed on his impressions of the west, said:—

"To my way of thinking there never was a land more ready to give a living wage to anyone who is ready to give in exchange an honest day's work. My advice to Old Countrymen coming out here in the future will be: Leave your eye-glasses at home, and your knickerbockers and your hypercriticalism and your superiority, put on a pair of overalls, pull off your coat roll up your sleeves and put your back into your work till you are through with it. Then instead of being all in, down and out, you will come out on top and will become a useful member of an enterprising community, and not at all a bad advertisement for the Old Country."

## Mounted Men Underpaid

Ottawa.—Demands from new settlements throughout Western Canada for detachments of the Royal Northwest Mounted Police become more insistent as western development proceeds and the demand exceeds the supply. The force at present consists of 658 officers and men, which is forty-four below the strength, the full strength being 700. Despite an average recruiting of 15 men a month the club is scarcely able to hold its own on account of the unavoidable waste from dismissals, deaths, term expirations, etc.

It is stated that a considerable number of men have been recruited in the old country recently but that a large proportion did not come up to the requirements. The rate of pay in the R.N.W.M.P. in comparison to wages in the west is said to be too low to attract recruits.

## Welland Canal Enlargement

Ottawa.—The Hon. Frank Cochrane, Minister of Railways and Canals has returned from a tour of inspection over the Welland Canal.

While it is well known that the Government intends to hasten the construction of this work, it is realized that owing to a lack of information which is necessary for specifications it will be impossible to let any contracts until next spring.

Engineers are now at work, however, taking bearings and securing the required information.

Next year will see the commencement of the actual construction work, there is every reason to believe.

## Crow's Nest Miners Threaten to Strike

Calgary, Alta.—Falling to get their claims for yardage submitted for arbitration, the miners in the employ of the Crow's Nest Coal Company, numbering 2,000, have practically declared they will continue negotiations no longer, but will go on strike. Notice to this effect has been served on the company and the miners claim ignored by the company. The president of the union has issued the statutory notice to strike, and a board of industrial disputes has been asked for in an application to the minister of labor.

## CHRISTIANIZE THE ESQUIMAUX

Anglican Clergy Won't be Influenced by Stefanon's Views

Montreal.—Great enthusiasm was aroused at a meeting of the Board of Management of the Anglican church in Canada by speeches of Bishop Stringer of the Yukon and Rev. C. E. Whitaker of Mackenzie River in regard to the much talked of tribe of blonde Esquimaux recently discovered in the Coppermine river and Coronation Gulf districts, within the Arctic circle.

Doubt has been cast upon the evidence of the existence of this tribe, but proofs of the most convincing character were laid before the meeting by the bishop and his colleague, including an actual photograph of some of the very people concerning which much discussion has recently arisen, thus confirming the statements of Mr. Stefanon of the tribe.

Referring to the alleged recommendation of Mr. Stefanon that all influences of civilization, including Christian ministrations, be kept away from these people the bishop told of the marvelous transformation of character that has followed the missionaries' work among other tribes of Esquimaux.

A very few years ago they were given up to thieving, licentiousness, murder, polygamy and infanticide. Now they are living lives that would be creditable to any Christian congregation.

Bishop Stringer stated that he was satisfied that many of the statements accorded to Mr. Stefanon in the press did not emanate from him. He also declared that at the present time one of his clergy, Rev. W. H. Phyllis, accompanied by twelve Christian Esquimaux from Mackenzie Delta, are on their way to the Coppermine district and the natives are all travelling at their own cost.

## Conference on Grain Situation

Ottawa.—Arrangements were made recently for a conference between the Railway Commission, the Grain Commission and representatives of Western railway lines to be held in Winnipeg to settle the question of railway facilities for the sample market, which is to be established in the Manitoba capital in connection with the grain situation.

Prof. Magill, chairman of the Grain Commission, was in Ottawa today and completed arrangements for the conference.

The date is not yet fixed but will probably be the latter part of November, when the Railway Commission has completed the adjourned sitting of the freight rate inquiry. At the same time the board will hold a number of sessions in the West.

Prof. Magill also took up with the Trade and Commerce Department a number of questions with a view to facilitating the rapid movement of the crop.

He reports that grain is moving rapidly and is of a high grade. They are hopeful that there will not be a blockade, and he reports that the railways are doing everything possible to handle the enormous crop which is pouring into Fort William and Port Arthur.

Work on the new Government owned elevator is being rushed as rapidly as possible, and it will be ready in time to help handle the crop of 1913.

## Heart-Rending Suffering

London.—Considerable bodies of Serbian troops have been sent across the Bulgarian border to join the Bulgarian army, says a despatch from Nis.

Describing the terrible condition of the hospital at Tush, a Podgoritz correspondent says that a hundred wounded Turks are lying around half naked, awaiting treatment. The floors are covered with putrid medicinal dressings. The Turkish doctors are apathetic, doing nothing.

The Cetinje correspondent of the Daily Mail tells of crying need for first aid societies. He says the hospital arrangements at Podgoritz are very bad. There is no proper sanitation and operations are performed in the crudest manner after days of delay with no preliminary dressing.

It is thought probably that the fighting will cease for a few days, the southern army having suffered heavily.

A constant stream of wounded adds the correspondent, has arrived in the last three days, which proves the struggle to have been desperate and costly. The official figures of 1,000 killed and wounded probably is an under-estimate.

## AIRMEN SAVED BY HELMET

Falls Sixty Feet and Lands on His Head, Only Slightly Shaken

London.—Cyril Foggin, a pupil at the Eastbourne Aerodrome, had a remarkable escape from death yesterday.

He fell with his machine from a height of sixty feet, and escaped with nothing worse than a shaking. He owes his life undoubtedly to his safety helmet.

Mr. Foggin was flying well in a light monoplane when the machine side-slipped and fell. It was completely wrecked, and the spectators rushed forward expecting to find the airman dead. He was not even stunned, and only complained of a slight headache.

Mr. Foggin said afterward that he pitched forward and his head struck the front of the machine. The helmet which he was wearing was deeply dented.

The airman attributes the accident to his unfamiliarity with the type of machine.

## Whale as Pilot

Edinburgh.—Seafaring men on the fifth of North are greatly interested in a whale, about 10 feet long, which has taken up its quarters in the upper reaches. When an approaching ship sounds its siren the whale proceeds down the Firth, swims round it, and finally precedes it until its destination is reached.

London.—Captain A. C. Weigall, M.P. for the Horncliffe division of Lincolnshire, has been making a tour of the constituency on horseback.

## SESSION IN JANUARY

OPENING OF PARLIAMENT MAY BE DEFERRED

The Rumor is Current That the House Will Not Meet Until January, and Report That Hon. F. D. Monk Will Resign Before the House Meets is Again Revived.

Ottawa.—A meeting of the cabinet council was held recently and when it was over it was stated that the date for the assembling of parliament had not yet been fixed. Delay in the announcement has led to the revival of the rumor that the house will not meet until January. It is probable, however, that no definite decision has yet been announced. The report that Hon. F. D. Monk will resign before the house meets has been revived. The report naturally is connected with the consideration of the naval question, it being asserted in home quarters that the minister of public works desires to have the proposal to grant an emergency contribution to the Imperial Exchequer submitted to a plebiscite of the Canadian people.

It is stated that the proposal which Premier Borden will submit to his cabinet is the immediate contribution of thirty million dollars and the repeal of the Laurier naval act. This will constitute the temporary policy of the government, the permanent policy to be brought down a year later. Whatever truth there may be in the report that Mr. Monk may retire would appear that there is something under the surface that is delaying the announcement of the date of the opening of parliament.

In both political and official circles the impression is gradually growing stronger that there is at least an even chance that parliament will not convene till January. A decision to defer the opening until a later date will be pleasing to the majority of western and maritime members, many of whom have within the past couple of months expressed the desire that there should be no November session with a long recess over Christmas and New Years, which makes it necessary for them either to take a long trip to their homes or remain in Ottawa with nothing to do for a period of three weeks.

## The Doom of the Turk

By THEODORE H. BOICE

NOW the turkey's days are numbered, and he won't have long to wait.

For the proclamation's issued fixing our Thanksgiving date.

At the end of this October there will be a royal feast.

And we'll bear a cry for turkey from the highest to the least.

There'll be pumpkin pie and fixin's down each eager throat to taste.

There'll be many palate ticklers and the cranberry sauce.

And there'll be a lot of delectables some will feel inclined to shirk.

But not one of all the eaters will decline a slice of turkey.

There'll be children, mothers, fathers, brothers, sisters, uncles, aunts.

With the turkey on the table as the object that enchants.

And if they are still as hungry as on feasting days before.

They'll not stop at the good serving, but will pass their plates for more.

There'll be trouble for the carver, though he tries to do his best.

When too many call for drumsticks and too many want the breast;

There'll be frequent calls for "stufing" in the most persuasive tones.

And before the feast is ended there'll be nothing left but bones.

So get ready, Mister Gobbler, and get ready, Mistress Hen,

For Thanksgiving day is coming, and you'll see your finish then.

Now, at last, your days are numbered, and you won't have long to wait.

At the end of this October you'll be smoking on the plate.

## Commissioner Withdrawn

Ottawa.—The department of trade and commerce has decided to withdraw A. W. Donley, its trade commissioner in Mexico, and for the present at least no successor will be appointed.

Lack of business between the Dominion and Mexico is given as the reason for the withdrawal. It is stated that the continual disturbances in Mexico and the additional fact that the Mexican steamship line formerly plying between Vancouver and Mexico and subsidized by Canada, has been withdrawn, have been responsible for the dropping off in Canadian trade.

Mr. Donley, who is a Simcoe man, has held the position as commissioner for the past 10 years. For the present at least the interests of Canadians in Mexico will be looked after by the British consul.

## GOLD FOR PASSERSBY

Old Man on Paris Street Asks Them to Help Themselves

Paris.—An old man in the Boulevard de Bonne Nouvelle yesterday approached passersby with a handful of gold and silver, and begged them to help themselves.

The money is for the poor, he said; take what you want. The persons thus addressed did not wait to be asked twice, and soon the old man had distributed some \$100.

He would have continued his distribution but for the arrival of a policeman who asked the old man to follow him to the police station. There it was found that he was a rich proprietor at Chaumont-en-Vexin and a harmless lunatic.

## Medicine Hat Population

Medicine Hat.—As a result of the police census it is announced that Medicine Hat has a population of over 11,000, being a gain of six thousand within the last twelve months.

Paris.—The battleship Paris, the third French ship of the Dreadnought type, will be launched at Toulon today after being only ten months on the stocks.

London.—Cries from a cat aroused the landlord of the George Inn, at Newington, Sittingbourne, to find that the house was on fire. The occupants barely escaped with their lives.

## HARVEST HANDS NEEDED

Farmers Believe Vast Crop Will be Gleaned by End of October

Winnipeg.—Harvesters are coming in, said J. Bruce Walker, but not in as large numbers as I would like to see. Saskatchewan is very much in need of men, and at Saskatoon the farmers are paying as high as \$4.50 and \$4.75 per day. It seems that in every point in Manitoba farmers are short of men, and are offering a uniform price of \$3.00 per day. At Virdee 100 men are needed, and a loud hue and cry comes from Morden, Manitoba, Pilot Mound, Killarney, Deloraine, Carman, Elm Creek and Treherne.

The rate of one cent a mile in Manitoba will be in effect until the end of October, and the one-half cent rate will be effective to points further west until the 25th. Even the small number that have responded to the call will help to solve the vexing question of the gathering of the grain before the frost comes, and with continued dry spell the farmers are quite sure that there will be very little left of the vast crop by the end of October.

In the agricultural districts around Saskatoon the demand for help is greatest. At this point as high as \$4.75 a day has been offered and yet the farmers declare they cannot get sufficient men.

## Men, Women and Children Struggle in Big Flood

Rome.—A waterspout passed through Castellamare, on the southern coast of Sicily, yesterday evening devastating the town in a few minutes.

The streets were covered with water to a depth of four feet. Houses collapsed, and the open spaces were filled with men, women and children struggling in the flood. Some of them were drowned and others rescued, with difficulty. A number of persons lost their lives through being buried in debris.

Troops were sent from Trapani to assist in fostering order and providing shelters for the survivors.

The exceptionally dry weather in northern Italy has been followed by numerous forest fires. An area comprising nearly 100 square miles is reported to be in flames near Savona.

## THE MARKET REPORT

Weekly Grain Letter Supplied by Thompson, Sons & Co., Grain Merchants, Winnipeg.

Winnipeg, Oct. 9.—A stimulating influence has come into the grain situation since a week ago in the actual outbreak of hostilities between the Balkan states and Turkey, and the fear that this action may precipitate a general European conflict. The latter event would be a calamity too terrible to contemplate, and in face of it, what the markets might do would be of comparatively little consequence to most of us. It is to be hoped that if the conflict cannot be stopped through the friendly intervention of the great powers working harmoniously together it may be confined to the Balkan peninsula and the combatants immediately concerned. If the conflict remains within these bounds its influence on the grain markets would likely be little more than the spurt it has helped to give to prices in the last few days. Since this day week the United States markets have advanced 1½¢ to 2½¢, the largest advance being in Chicago December wheat. In our Winnipeg market the advance has been ¾¢ on the October delivery and 2¢ on the other months. The very large movement of wheat in the United States during the past two months has not resulted in the big accumulation of visible supplies that has been looked for. Since the 1st of July to date the primary receipts of wheat in the U.S. have been 109,365,000 bus. compared to 76,961,000 bus. in the same period last year, an increase this year of 32,404,000 bus. and yet in that time the U.S. visible has increased only 9,280,000 bus. while last year in the same time there was an increase of 32,536,000 bus. There have no doubt been many holes for the new crop to fill up, and there has been an unusually good floor demand in the U.S. In the last two months, which has caused the milling demand to be large and there has been an export demand beyond what was expected, which has been partly, at least, caused by the great delay in western European wheat getting to the miller, owing to the very unfavorable harvest time. Thus the big movement of the U.S. new crop has gone elsewhere than in-

to the visible supply, but the well known large size of the crop, together with the promised abundance of our western Canadian crop, caused speculative operators in the U.S. markets to keep on selling for future delivery even after prices had declined freely, with the consequence that the market has been heavily oversold. The gradual recognition of the fact that the visible supply was not increasing commensurately with the large wheat movement and the war developments, is coming to a head at the same time, have arrested the bearish sentiment in the markets and given an upward turn to prices. Whether the strength thus imparted to the trade will become permanent and continue to advance prices is uncertain because while there have come certain changes into the situation, these do not change the fact that the United States, Canada and Russia have been unusually large crops of wheat of average good quality, and that they have only yet made a beginning of disposing of their surplus to the export market. The delay in these large crops pressing on the world's markets has been caused principally by the delay through unfavorable weather in the finishing of harvesting and the progress of threshing in the U.S. and western Canada's spring wheat area. The weather over this part of the world has been more favorable during the past two weeks than previously, although in the last four days it had been partly, though not seriously unsettled, and the work of threshing and hauling the grain to the country depots has progressed, and railway movement shows a large increase. In the last five days there have been 442 cars of wheat inspected at Winnipeg; in the same five days last year the number was 2770 cars. The average quality continues high and the percentage of tough or no grade cars is on the decline. Today the United States Agricultural Dept. issued their October report, giving among other information, the estimated yield per acre of the U.S. spring wheat crop. The yield is put at 17.2 bus. giving a total yield of 330,390,000 bus. against 300,000,000 bus. at September 1st. The winter wheat crop, estimated on Aug. 1st, was 389,945,000 bus., so that the total U.S. wheat crop is estimated at this date as 720,335,000 bus. against the final estimate of 621,338,000 bus. for the crop of 1911. Last week the U.S. visible supply increased 1,025,000 bus. against an increase last year of 3,989,000 bus. and the aggregate now is 32,633,000 bus. against 56,698,000 bus. a year ago. The European visible increased 5,020,000 bus. compared with a decrease last year of 700,000 bus. and the total is now 77,988,000 bus. Last year the total was 82,400,000 bus. The world's available supply of breadstuffs according to Bradstreet's, increased last week 10,938,000 bus. compared with the increase of 5,753,000 bus. a year ago. The world's shipments last week from exporting to importing countries were 14,088,000 bus. against 11,024,000 bus. a year ago, and the aggregate amount of wheat on ocean passage is now 38,688,000 bus. against 32,064,000 bus. a year ago. These statistics, with perhaps the exception of the U.S. visible supply statement, can be taken as very bearish and should the result of the general world's movement of wheat during the next few weeks be on the same lines, the probability is that whatever views as to prices speculative buyers may develop, the commercial value of wheat for this season is somewhere around the level of present prices. Along with ample supplies of wheat actually on hand or about to come on the markets, we must keep in view the new crops now growing. The Argentine and Australian crops are growing well under favorable conditions but their critical periods are during the next six or eight weeks, in two months the earliest districts will be harvesting. The crop outlook in India is favorable, and the seeding of the new winter wheat in the U.S. is well advanced under favorable conditions.

Our Winnipeg market has had quite a spurt through the war scare and apprehension of another spell of unsettled weather coming to further delay movement. October is beginning to slip along and October shorts have been getting very uneasy. Shippers and exporters have a great deal of vessel space engaged to load at the lake ports during this month, and all the wheat is needed. This has caused our market to be stronger than the U.S. markets, in face of a large increase in wheat receipts. The shorts have really been the means of advancing the prices through their efforts to cover their short sales, and a good deal of trade has been evened up in this way and the short interest lessened, and unless further strength comes from outside, today's prices are likely to ease down again. Today's cash prices are 1 Nor., 92½¢; 2 Nor., 94½¢; 3 Nor., 88½¢; No. 4 wheat, 82½¢; Tough wheat is 6¢. Under straight grade, Alberta Red Winter No. 1, 91¢; A.R. No. 2, 90¢; A.R. No. 3, 88¢. Futures closed October 92¢; Nov., 90½¢; Dec., 87½¢; May, 92½¢.

Oats.—The oat market continues firm with good demand, owing to scarcity. The new crop oats will be late in coming along freely and shorts in October oats are liable to be squeezed. The stock of 2 C.W. oats at Fort William and Port Arthur is only 29,711 bus. against 298,294 bus. last year. Today's cash prices are 2 C.W., 42¢; 3 C.W., 39¢; Ex. 1 Fd., 41¢; 1 Fd., 39¢; 2 Fd., 37¢. Futures closed October 40½¢; Nov. 36½¢; Dec., 35½¢.

Barley.—Receipts of barley are fairly large and demand is good. Prices are No. 3, 55¢; No. 4, 50¢; Rejected, 45¢; Feed, 45¢.

Flax.—Receipts of flax are also liberal and the quality very satisfactory. The demand is only fair and the price tends to ease off some. Today's cash prices are: 1 N.W. Canadian, 152¢; 2 Can. Western, 148¢; Rejected, 130¢. Futures closed Oct., 150¢; Nov. 148¢; Dec., 139½¢.

Prices are basis delivery in store Fort William, Port Arthur and Duluth.

## THE SUNDAY SCHOOL

LESSON IV.—FOURTH QUARTER FOR OCTOBER 27, 1912

Text of the Lesson, Mark vii, 31 to viii, 10.—Memory Verses, 34, 35.—Golden Text Mark vii, 37.—Commentary Prepared by Rev. D. M. Stearns.

Departing from the region of Tyre and Sidon, where He had comforted the mother's heart and honored and commended her faith, He returned to the sea of Galilee, a journey of forty or fifty miles, but nothing is said of the journey. How little we think of His long walks from one part of the country to another. It is easy to travel in our day, and there is a vast amount of it done, but very few do it on foot and for Him, yet I do know some missionaries who are very like Him in this respect. Verses 32 to 37 of our lesson are recorded only by Mark and tell of the healing of a deaf and dumb man. Some are dumb because they cannot speak and others are dumb because they will not speak.

It is sometimes wise for those who can both hear and speak to be as if they were both deaf and dumb (Ps. xxxviii, 13). Too many are dumb because they do not feel constrained to speak. Their remedy may be found in Ps. xxxix, 3; Ezek. iii, 27; Jer. ix, 8, 9. If any are inclined to plead slowness of speech or the inefficiency of youth they be helped by Ex. iv, 12, Jer. i, 7-9. All need that which our Lord commended in Acts iv, 31. All may come unto Him, and He knows at once a right way for each. His way with this, particular man was unique, but it must have been the right way for him. He took him aside from the multitude. He often takes us aside that He may cause us to hear or see or know something He could not otherwise teach us. It is blessed to be taken aside with Him. I like the verse which says that we should live together with Him (I Thess. v, 10). We have read of many being healed by touching Him or the hem of His garment, but see His fingers on this man's ears and tongue, and instantly he could hear and speak plainly. Was the power in His touch or in the words "Be opened," or in both? More important for me to be able to say that He has touched me and hath spoken to me, and taught me to say "He hath done all things well."

Just here Matthew records that He went up into a mountain and sat down and great multitudes came to Him bringing the lame, blind, dumb, maimed and others and cast them at His feet, and He healed them, and the glorified God of Israel (Matt. x, 30, 31). When Israel came out of Egypt there was not one feeble among their tribes and when the kingdom comes the inhabitant shall not say, "I am sick." There shall be no more death, neither sorrow nor crying, neither shall there be any more pain. They shall hunger no more, neither thirst any more; neither shall the sun light on them nor any heat. (Isa. lxv, 16-19; Rev. vii, 16; Jer. xxxi, 34; 1 Cor. xiii, 4). Do you wonder that Jesus told them of such a kingdom as He fed them and healed them. What can we think of those who know of such a kingdom and are doing nothing to make it known to others who might be glad to become inheritors of it if they only knew about it and knew how to become heirs to it?

Returning to the record in Mark, we read that the multitudes had been with Him three days with nothing to eat, and some had come long distances so He had compassion upon them and said to the disciples, "If I send them away fasting they will faint by the way." Did He really care and does He care if we are faint and weary? Oh, yes He cares; I know He cares. It matters to Him even about sparrows, and He clothes the lilies. The disciples seem surprised at His remarks and ask: Whence can a man satisfy these with bread here in the wilderness? Well, that depends upon the man. An ordinary man could not, but who is this man? Had they forgotten that so recently they had taken food from His hands to more than 5,000 people and had seen Him control and subdue a great storm? Yes, it is the old story of Ps. lxxviii.

They forgot His works and His words that He had showed them. They said: Can God furnish a table in the wilderness? Having ascertained that they had seven loaves and a few small fishes, He took them and gave thanks and broke them and gave to the disciples to set before the people and they did all that He commanded.

He took what they had and used it as on the former occasion, though He might have rained it from Heaven (Ps. lxxviii, 24). The poor widow had a pot of oil, and He multiplied that. Another widow had a little meal and oil and He multiplied that. He can create out of nothing, but He seems to love to take what we have and increase it. He wants it all given over to Him, as these and He Himself gave up all for us. He has provided a full and complete eternal redemption which He freely gives to every one willing to receive Him.

Then He asks those who have received Him, and to whom He has given all, to forsake all that they have that they may become His disciples (Rom. vi, 23; John i, 12; Luke xiv, 33). To be used by Him as He will. He is all fullness, the fullness of the Godhead bodily, and we may be filled by Him for the benefit of others (Col. i, 19; 1 J. 9, 10).

Civil Service Reforms

Ottawa.—It is announced that the contemplated Civil Service reforms, include the placing of skilled mechanics under the control of the Civil Service Commission.

There are a large number of these mechanics in the Government's employ, and these are classed as laborers.

## Septuagenarian Pickpockets

London.—Omnibus stopping places in Borough High street were the hunting grounds of two aged pickpockets, James White, aged 79, and Mary Ann Smith 70, who were committed to the London session from the Tower Bridge police court yesterday.

## Mike Running Wolf Sentenced for Life

Slayer of Policeman 'Happy' Davis Was  
Found Guilty of Manslaughter

Mike Running Wolf, also known as Jim Ham was found guilty of manslaughter on Thursday last by the jury, the announcement being made by foreman Jas. Jones. The evidence charging him with shooting Mounted Policeman Thos. Davis and thereupon Justice Simmons sentenced the Indian to life imprisonment in the Edmonton penitentiary.

All the evidence having been taken, counsel for the prosecution and defense addressed the jury for and against the accused. Both of the attorneys dealt almost entirely with the degree of the crime. The prosecutor attempted to show wherein murder in the first degree had been committed and the counsel for the defense presented his arguments to show that Jim had shot while in the heat of passion induced by liquor.

His Honor, Mr. Justice Simmons, stated that there was a great deal of the evidence he wished to review before charging the jury.

**Address of James Short, K. C.**  
James Short, prosecutor for crown said:

"Your honor and gentlemen of the jury, you have heard the evidence of the witnesses who have been called by the prosecution and there can be no doubt but that the accused did commit the crime. The only point which remains for you to decide is whether it was murder in the first degree or manslaughter. The fact that the accused time and time again said he had shot a mounted policeman shows conclusively that he knew what he was doing and the rank of the man he had killed. It has not been shown that the constable used anything but proper leniency when he overtook the trio of Indians on the trail. In fact, it is more than probable that he acted in the manner usually adopted by the mounted police when dealing with Indians. It has been shown that he rode along beside the conveyance in which the Indians were riding, talking to Jim Ham and telling him that it would be necessary for him to go back to the town of Brooks."

### Evidence of Squaw

As to the evidence of the squaw, Red Face, concerning the firing of the shot by the constable, she was to say the least, confused and it is not at all sure that the constable did fire any shot. If he did there is no evidence that he fired at or hit anybody. Contrast this with the action of Jim Ham, who after firing the first shot had time to regain control of his temper. But he made no attempt to regain control of his feelings but descended to the ground, and having taken deliberate aim, fired the second and fatal shot.

What reason had the accused for firing at Nick Cline and a defenceless boy? Did they give him any provocation?

"We of the prosecution are not asking for revenge, but the laws of the land must be observed, otherwise they will exist, only to be broken and held up. In closing let me ask you to give the accused the benefit of any reasonable doubt that may exist and return a verdict in accordance with the evidence."

### Prisoner's Counsel's Statement

Stanley Jones, counsel for the prisoner spoke very briefly as follows:

"Your honor and gentlemen of the jury, I will not attempt to interpret the law in the case for you, as his honor will do this with full justice. But I will ask you to bring in a verdict of manslaughter as this Indian was in a frenzy caused by drink and was therefore not responsible."

"We, who have lived in the west for some time know the effect that even a small amount of liquor has on an Indian, and can readily understand that Jim Ham did not know what he was doing. Upon his arrival at the reservation he was intoxicated and boasted like a big fellow that he had killed a mounted policeman, but the next day his recollection was so poor that he attempted to blame it on a halfbreed. This I claim is a strong point, when the night before he had so openly boasted of the killing."

"The mounted police are so well known and so well established they will lose no prestige if Jim Ham is not hanged as an example."

"I will not ask you to have any false sympathy or sentiment in the matter, but I will ask you to remember the laws treat the Indians far different than they do the white man. As a matter of fact they are treated as children or wards of the nation. Therefore I will ask you to consider the fact that Jim Ham did not know what he

was about, and to bring in a verdict of manslaughter."

### The Judges Charge to Jury

Mr. Justice Simmons made a concise and brief charge to the jury dealing with the question of the degree of the crime.

His honor spoke as follows:

"Gentlemen of the jury, there does not appear to be any doubt but that the prisoner committed the crime. It is therefore for you to bring in a verdict as to the exact crime. There are three points to consider. First, was the prisoner so utterly insane from intoxication that he was absolutely not responsible for the act, not being aware of the purpose, intention and consequence of his act. If so he could not be held responsible and would be entitled to an acquittal."

Secondly, did he kill the constable in the heat of passion, and before the passion had time to subside. This would warrant a reduction of the charge from murder to manslaughter."

Third, did he shoot the policeman in an excited and intoxicated condition, but not so intoxicated as to be able to form an intention to shoot and kill the policeman. If he was capable then the verdict would be one of murder. That he was more or less capable of forming an intention is shown by the facts that he took the chaps, belt, revolver and hat of the dead man. Having done this he caught the dead policeman's horse and when he mounted it, instructed the squaw to drive the team, and rode the horse back to the reservation."

Having completed the charge the jury was instructed to withdraw, and after due deliberation to return a verdict.

The jury returned, and through the foreman, as already stated, announced their verdict as guilty of manslaughter.

The prisoner took the sentence very coolly, and had nothing to say. There is no need of again repeating the history of the crime for which the Indian will spend the balance of his days in confinement as it has already appeared several times in the CALL.

Speaking of Alfalfa the other day T. H. Beach, Vice-President of the Board of Trade, said: "I do not know much about the subject, but I do know I paid Wm. Walsh \$15 a ton for three tons and I do not think I made a great mistake. I believe Mr. Walsh sold all he had to spare at this price. It seems to me that raising of Alfalfa should be a paying crop, especially when you can buy other hay so cheap."

A. Beauchman left yesterday for Winnipeg, where it is understood he may remain permanently. It will be remembered he broke his leg a couple of months ago. He is now able to get about with the aid of crutches.

### A New Discovery

Machels, Nature's Scalp Tonic, the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. Has a record for growing hair—95 cases out of 100. Price for complete home treatment, \$1.00. Sold and guaranteed by Gleichen Pharmacy.

## UNRESERVED Auction Sale!

Alberta Stock Yards  
Calgary

Thursday, October 31st  
at 1 o'clock sharp

Instructed by Messrs. Muckle, Hoople  
& Renton, who are disposing of their  
horses and going in for sheep, I will  
sell the undermentioned:

### 112 Head of HORSES

consisting of:  
40 head of Mares from 3 to 6 years old,  
and weighing from 1250 to 1400 lbs  
each.  
35 head of geldings 4 to 5 years old,  
weighing from 1300 to 1450 lbs each  
30 head of Stallions.  
1 Registered Stallion "Copshaw Special" (Imported).

The above horses are the best lot of  
Clyde breeding I have ever had the  
pleasure of exposing for sale in Alberta.  
The mares are mostly all young,  
and their sires and grand sires were  
imported horses.

Messrs. Muckle, Hoople & Renton  
are well known all over Alberta for  
their good Clyde horses and anyone in  
want of good stock will do well to attend  
this sale.

These gentlemen are to have their  
horses brought in to the Stock Yards  
for the convenience of intending purchasers.

Terms Cash. No Reserve.
